

I AM AN IMMORTAL GENIUS AND A MAN OF GREAT CONSCIENCE WHO HAS SUFFERED FOR LIBERTY OF MY PEOPLE THE HUMAN RACE

It is only experience and time where we begin to understand who we are. I learned over a decade of labour on theoretical physics against the grain of the age, that I am an immortal genius, exceeding that of Albert Einstein and Erwin Schrodinger. It took an entire decade of work to complete efforts at Four-Sphere Theory. The work began in Williamsburg Brooklyn in 2008. And it was completed in 2018, in Allen Texas. Many adventures of adversity and triumphs accompanied it, and total lack of assistance financially from government or universities. The work is archived and available to public [1].

Roughly in the past three years, from 2018, a new chapter began in my life. I had begun turning to psychology and worked on Finance problems as well. The conflict with Bill Gates began in the past year, perhaps a bit longer. The enormous sufferings I had endured with the vile destructive power activity of Bill Gates led to breathing problems and many other health problems. Then my deeply held convictions had to be expressed, as my Conscience was tested. I found that I was a man of Great Conscience, and that there was purpose and meaning of my suffering. My beloved people the Human Race faced grave threat to their Natural Rights from Bill Gates and his wealthy white backers and co-conspirators. Ever since I had broken with International Socialist Organisation two decades ago, I had been thinking about many issues of political philosophy and I had naturally gravitated towards universalism, as was my natural instinct throughout my life. I realised that I might be in the front-lines of a war to secure and preserve Liberty for the entire human race of eight billion, and that my sufferings are sacrifices that I endure to ensure that Liberty for eight billion are preserved. From an intellectual issue of understanding what is right and what is wrong, I was flung into conflict that would lead to my own death. It was not a conflict that I chose. I was just following my American Dream, and when Bill Gates blockaded my income from D. E. Shaw & Co. of \$120 million, I retaliated, and was harmed more and suffered greatly beyond financial starvation as Bill Gates proceeded to break laws to cut deeper past my blood meta into my deep interior with War and Industrial Powers. I sought a Natural Rights Security World Order and began a campaign at the United Nations.

This is not what I chose to do with my life, but now I must stand as the man of Great Conscience who must safeguard Liberty for eight billion people, and I have to consider whether White People in US Executive Branch in Washington ought to be considered, along with Bill Gates and his wealthy white backers, as the *Enemies of Liberty of Human Race*. Thus I am an Immortal Genius and a man of Great Conscience who stands against the Enemies of Liberty for the Human Race.

1. MY PRIVATE PROPERTY IS \$620 MILLION

Both David E. Shaw of D. E. Shaw & Co. as well as Chistine Lagarde, of Frankfurt-based European Central Bank together will attest that \$620 million is my private property. The fact that Bill Gates and his backers have used illegitimate means of power to deny me access and use of my own resources, my private property does not mean that property is not mine. United States Government and United Nations Security Council and all National governments can easily verify that \$620 million is my private property. Therefore I am not worried about having \$620 million.

Instead my worry is that Bill Gates and his wealthy white American backers are not just interested in pilfering and obstructing money from legitimate owners of the money but have much more dangerous plans for a White Ruled World Order. It is this that is more important to me at a fundamental level, that it is my duty of Conscience to stand against *Enemies of Liberty of My Beloved People The Human Race*. I have identified Bill Gates and his wealthy white American backers as some. I am examining whether White People of US Executive Branch are also involved.

2. ZULF ADMITS DIFFERENT STANCE FOR EARLIER YEARS

For most of my life, I was American liberal, urban, and then Socialist a decade ago. I will confess that strong convictions for staunch defender of Liberty of the Human Rights is a development in the past two decades. Before I knew of Bill Gates Power plots for enslavement of the non-whites of the world by meta means, I was not particularly concerned about being the staunch defender of Liberty for the entire Human Race. I am aware that I am vulnerable to the criticism that I was much more concerned with other issues politically. But I am reborn over the past few years politically, and have gone through my struggles through fire if you will, and have no doubts that so long as I shall live, Liberty of my Beloved People, the Human Race shall not perish. I am born into a war that lit fires deep within my heart of which I was unaware.
