

JANUARY 7 2022: FBI COMES WITH VARIOUS BILL GATES ISSUES

ZULFIKAR MOINUDDIN AHMED

FBI officers came to visit just now, Friday, January 7 2022 in 915 Meadowgate Drive Allen Texas 75002, my aunt's house. They said that they will construe one of my numerous posters as a possible prosecutable offense. I agreed to stop any manner of threatening letters. Now I am obviously convinced that Bill Gates harmed me tremendously, blockaded \$620 million of my money from D. E. Shaw & Co. and Madam Lagarde. But I agreed to go with the medical people on Wednesday to check on my mental and physical health.

They say they FBI has the information that I had been disseminating, that they will look into the accusations against Bill Gates who wants a white supremacist world order and had decided to sabotage my life. But this might not go anywhere.

Stanford really ought to offer me tenure for my Universal Moral Nature and Four-Sphere Theory work, and take into account good performance on three Stanford Math Ph.D. Qualifying exams.

I need my money \$620 million from Finance. I do not understand how Bill Gates is able to blockade Madam Lagarde's efforts. I could have bought a place and lived a happy life in San Francisco already a year ago but Finance has not come through either.

It is unlikely that FBI or police will actually do anything about a serious threat to natural rights of all non-white people in America and the world posed by this Bill Gates. They will most likely put me on some medications.

I want the world to know that my life is endangered by the heavy meta, US War Meta, and European black magic attacks of Bill Gates. Bill Gates had done enough harm to me by November 4 2020, more than a year ago that Queen Elizabeth's Royal Mender's had assessed as lethal for any Bengali man.

But I did agree to reduce my provocative campaign against him. It was my responsibility to inform the world that Bill Gates is a racially motivated murderer, that he dreams of enslaving and harming all non-white people, that he will continue with his project which even includes denying success in US Industry to non-white people.

Thank you,
Zulfikar Moinuddin Ahmed
