

INSTRUCTIONS TO CHINA ON PROPER ETIQUETTE AND BEHAVIOR FOR ASIAN DEFENSE AGREEMENTS

ZULFIKAR MOINUDDIN AHMED

China, pay attention to what Zulf says. Zulf is an Archangel of Heaven and can save you a lot of problems.

First, always repeat that you love the American Way of Life, and that you wish health and happiness for all American People. Always say this a lot.

Second, be the last party to join pledge of mutual non-aggression with all other Asian countries. Wait till everyone else has already done a pledge. Seem interested but not too eager.

Third, remind the American People that you did not propose these things and have no designs against health and well-being and natural rights of American people.

Fourth, say we are friends with American People but also have obligations to our Asian brothers and sisters. Use slightly meek and apologetic language like "Well, you know how it is, Asian countries do look to China for some assistance, and we do not want to be ostracised, we do have to do some of these things."

But never forget to actually sign and do the pledges. That's the key.
