

**ZULF'S BLACKMAIL LETTER TO EUROPE OF DECEMBER 12
2021**

ZULFIKAR MOINUDDIN AHMED

European Powers,

England, Germany and France, I want you to get into defensive alliance right away with Russia, China, and Japan. Now I know you love your Western Values and don't agree with Asian Powers on many things. But you all signed UN Universal Declaration of Human Rights and I want those *actually secured* not just for your people, 746.4 million, but also Asia's much larger 4.5 billion people.

You've been following the United States of America in NATO. I want to bring to your attention research of James Lucas [?]. The United States of America has killed more than 20 million people in 37 countries since 1945. I am an Archangel of Heaven and I am most displeased at your complicity in these events.

I want you to repent and mend your ways, England, France, and Germany. I want you to abandon NATO, and make the defensive alliance with Russia, China, and Japan right away.

United States is planning new aggressive wars in Asia. I will be quite unforgiving if you do not move fast enough to sabotage these.

Then I want you to jointly continuously apply economic sanctions against United States with Human Rights Council examining American human rights record here at home and abroad, mostly in Asia, South America, and Africa.

I will penalize you with unspecified calamities if you fail to comply.

Good luck with these.

Thank you,

Zulfikar Moinuddin Ahmed
