

I AM NOT ON EARTH ON OFFICIAL ARCHANGEL BUSINESS

ZULFIKAR MOINUDDIN AHMED

I am an Archangel of Heaven. I arrived on Earth in 1973. Let's see that's nine months before November 19 1973 I entered the fertilised egg of Sadiqua Ferdouse Ahmed and Khondkar Miran Ahmed. They have been wonderful parents and I love and adore them. I have no regrets with my choice. I won't go into how much I appreciate their love and care.

My purpose was simply out of love for Human Race, and vacation. My father passed away in 2002 and my mother is sick and will pass away one day not too distant in the future. I love her dearly.

I did not come to Earth on any serious Archangel Business at all. I liked the last life I had as Englishman in 1180-1300 period and I returned for a peaceful life. Of course, I thought to give the Human Race some gifts of Heaven. I have already disseminated some. I gave you the final theoretical physics for macroscopic phenomena including the correct law of electromagnetism. I gave you knowledge of universal human moral nature. I gave you the full spectrum of Virtues for autonomous maximal Life Satisfaction. These are all gifts of Heaven. Heaven is generous with it's gifts; I am Archangel of Heaven and my gifts to Human Race are those of Heaven.

These are good gifts, and will transform your future in positive ways. We, the Archangels of Heaven do love you, the Human Race, but we are displeased with a Demon on Earth, which causes consternation to me and will be disturbing to all Archangels in the Universe. We don't have the resources to pay attention only to Earth and Human Race. We have millions of other worlds that we are involved with.
