Let's see. I won't order this right away, but we might have to consider the scenario where White Supremacists have to be totally wiped out for the peace and security of the world. How many are there ? In America at most 5% of white people strongly define their identity based on ethnicity. Let me get my trusty R to calculate. That's 5% of 200 million, so 10 million. That's not a problem at all. If push comes to shove, the world can wipe them out with extremely bloody warfare right in America.

Europe and Asia can invade America and just target and destroy these 10 million white Americans and the world will be just fine without them. As a matter of fact why doesn't Europe and Asia put in some resources for technology to kill them without detection.

Bill Gates will probably get away with my murder with US Government collusion, but then the fallout could be that Eurasia produces a military alliance and seeks and destroys all white supremacists, kills ten million people and then says "Oh sorry about that we miscalculated and gets out and pretends nothing happened and maybe makes some Statues of Liberty and Justice to make up for the event to pacify Americans. This diabolical plan would get rid of the problem and the rest of American white people are not as dangerous to the world.
