

SEVERE DEFICIENCIES SUSPECTED FOR BILL GATES EARLY EMOTIONAL DEVELOPMENT

ZULFIKAR MOINUDDIN AHMED

Bill Gates has severe deficiencies that I can detect in his early emotional development. Obvious explanations are possible: isolation from socialising, psychopathic tendencies. His envy reactions are uncontrolled and he is severely jealous of any women being interested in me at all. This is toddler level jealousy and extreme underdevelopment of emotions. His narcissistic tendencies and unintelligent assumptions about white people's moral nature suggests severe isolation, most likely because of excessive attention to him as a prodigy and lack of adolescent moral development at all. You will note that from the Christian point of view he is a symphony of vices with a belief that power makes its own values. These sorts of ideas are of course totally wrong and disastrous for most people. Values are not arbitrary but have deep genetic roots in humanity. Bill Gates has one of the most vicious characters in human history. I would advise against attempt to produce purely sociological explanations of his deeply malevolent and vicious character without any redeeming qualities. He is a deceiver and manipulator of other people as all psychopaths are, but compared to ordinary white people he is severely underdeveloped morally and emotionally. The proof is of course in the explicit failure of his marriage recently.

I would recommend deeper study of this man's emotional and moral development because I am quite certain that he is Demon born in human fertilised egg in his mother's womb, and not a human soul.

1. BILL GATES' VIEW OF ROMANTIC LOVE IS THE WOMAN HAS A FANTASY

I was trying to understand Bill Gates' view of Romantic Love and he clearly said regarding a young man and woman holding hands in a park that "the woman has a fantasy" and I could not make out whether the man also has a fantasy or not but he says he doesn't really care about Romantic Love.

Now I was not an early bloomer in romantic love at all and was a virgin through 1991-1995 and married the first lover I had in 1996. Let's see. So I was a virgin till 22. Most men I knew were sexually active earlier than that in America. But certainly by my 30s I was quite able to articulate thoughts about people being in love being human nature, and other relatively simple things about the phenomena of romantic love and had gone through some significant experiences, heartbreaks and unions and so on. I do not think that a 66 year old who says the sort of things Bill Gates says about romantic love can be considered emotionally mature as an adult male. I think that the sociological explanation of some of his malevolent ambitions are consistent with severe emotional underdevelopment.
