

I'LL GIVE ISRAEL A SMALL KUDOS

ZULFIKAR MOINUDDIN AHMED

Israel, this is very good. So you have determined that Bill Gates is the worst human being who has ever lived on Earth? That's very good, Israel. Yes.

In fact he is not a human being exactly. He is a Demon Soul who was born on Earth in 1955. He is not the most powerful Demon by a long shot. He's a Demon outcast. Now Human Race is an *Angelic Race* and he does not actually belong in this world at all. He ought to have been slaughtered with extreme violence right after birth with his white baby blood all over the walls like a Jackson Pollock painting. But unfortunately American Government believes that Demons are fine to coddle but human beings are expendable.

Anyway, good. You should not have destroyed Twin Towers and faked Muslim hijacking. That was not good. This is good.
