

## HOW I NEVER SAW A PENNY OF MY \$120 MILLION EARNING FROM D. E. SHAW & CO.

ZULFIKAR MOINUDDIN AHMED

For several years I worked very hard on new option pricing models and I achieved great success. I found a closed form long memory stochastic volatility model with jumps in price and returns that was far superior in fitting market volatility surfaces than Heston and Bates. I was pleased with this.

Then I began exploring the fundamental no arbitrage assumptions of price movements for a while, ended with Alpha strategies in Medium Frequency that gave spectacular results in all asset classes. I was trying to raise capital to trade it and D. E. Shaw & Co. found my pitch and decided to invest effort into it. It's my work and it's Nobel Prize level quality because it works in so many markets and the concepts are clear. I pioneered the whole area of Medium (rather than High) Frequency Alpha.

Well I gave a sale by meta to Bill Gates via Goldman Sachs debt etc. He kept repeating 'my money my money my money' meaning that he did not want me to get paid anything. I got India to put in \$4 billion. Then he put in \$2 billion with D. E. Shaw & Co. and forbade them to get me my cut which is \$120 million. I kept emailing D. E. Shaw & Co. but they were totally silent on email. They said they would need protection from Bill Gates retaliation to be secure because Bill Gates will destroy their business if they disobeyed him.

I kept asking US Government, US Defense, US State, SEC to provide D. E. Shaw & Co. with whatever protection they need so I could get my legitimate earnings because \$120 million is not D. E. Shaw's money; it is mine. But I never got a single actual assistance from US Government. Instead, White US Generals started considering all possible ways of saving Bill Gates instead of securing my Natural Rights.

Obviously I was quite irritated. Bill Gates is a criminal cunt who breaks laws and breaks Finance rules, cuts up my eyes and destroys my interior and causes massive damage to my life, but these good for nothing White US Generals bend over backward to protect Bill Gates rather than American me.

Well not much has changed. Leon Panetta did some considers but I still have not seen my \$120 million. Bill Gates, the most evil malevolent criminal destructive cunt in history who ought to have been aborted before birth is still free to break all US Laws, and US Generals are still more worried about Bill Gates' interests rather than their sword (because of US Declaration) obligation to secure Natural Rights.

In the same time, I am living on disability these days in my aunt's house who is materialistic and makes a habit of enormous abuse every day because it's her house, my mom is sick and I am the eldest son and was expecting to get back on my feet with my Finance work. Of course I will wreck the US Government and abolish it after a while. I don't think this US Government is legitimate at all.
