

## HENRY P. MCKEAN'S SUGGESTIONS TO WHITE LAW WARDENS

ZULFIKAR MOINUDDIN AHMED

Henry P. McKean, a great mathematician who is white pointed out just now that until White Law and White Canon is in perfect coherence with United Nations Human Rights and security of Natural Rights for all human beings, then White Law will be increasingly seen as a fringe element in world society.

Bill Gates says that he is white oriented, and yet in every opportunity in the past year or so he has claimed 'White Right' to cut into my blood meta and cause enormous destruction, including cutting up my heart and Vampyrically siphoning my Life Blood and calling it 'floof' claiming White Right again. These are egregious and vile violation of my Natural Rights which the United States Government is charged by contract and by institutional foundations (such as US Declaration) to secure.

Bill Gates' use of White Law to harm an American, myself, is so outrageously malevolent, so evil, so abominable, so horrific, that unless White Law conforms to the United Nations Human Rights Law, to Christian Law, to United States Law sooner or later the world will consider White Law to be a grave threat to it and take up arms against White Law as an evil force in the world.

I will implore wardens of White Law and White Canon to immediately take remedial action against the malevolent evil vampyric abomination Bill Gates and bring White Law in coherence with UN Human Rights, US Law, Christian Law.
