

## FATE OFFERS ZULF THE GREATEST POLITICAL OPPORTUNITY

ZULFIKAR MOINUDDIN AHMED

The time has come for Great Men to take up their positions in the global political stage. The opportunity is the vilest murderous evil racist Bill Gates on a frontal unconstrained attack on Zulf, the immortal Genius. Fate calls Zulf to examine the massive harm done to my Deep Interior and Blood Meta, and huge harm including attempts to induce Leukemia and Cancer by Bill Gates upon my body. Fortune shines upon me, and I can now totally purge US Government from every racial mother fucker permanently.

You see the problem is that is the racial supremacist conscienceless evil murderous rat bastard Bill Gates had a government career, he would have been able to pull a Doctor Strangelove on my ass, and harm me with all sorts of official government authority. But he is hick. He is illiterate. He's not from New York a great city with a cultural history. He's not from San Francisco. He's from hicklandia, provincial Seattle, where a chair from 1960 is considered extreme antique, from antiquity. Now what I will do is accuse every person who even remotely delays his execution as a dyed-in-the-wool unrecoverable racist, much worse than any Nazi scumbag, and ra ra across the world about just how abominable and vile racist they are and how they need to be expelled from American society as a pariah.

Soon, no one will give them a job, and they will be destitute. I'll out-Joseph-McCarthy Joseph McCarthy their asses, and sooner or later America will rejuvenate with life, and be as great as America was meant to be, a Great Multi-Ethnic Classical Liberal Democratic Republic sans the racist cunts in US Government.

My life is literally threatened by Bill Gates, so I don't give a flying fuck is 99% of US Government is cleaned out of racist fucks. Good riddance and may they have good luck competing for food in dumpster diving with the rest of the tramps and dregs of society.
