

WHOEVER YOU ARE ON EARTH SORRY TO BURST YOUR BUBBLE

ZULFIKAR MOINUDDIN AHMED

I, Zulfikar Moinuddin Ahmed, Archangel, am the most valuable and important human being alive and human race needs me. Whoever you are on Earth, I know you need your self-respect; I know that you need to feel important; that is fine. But I am sorry to burst your bubble but I am infinitely more important and valuable for the human race than yourself. I am the great immortal genius who exceeded Albert Einstein and Erwin Schroedinger with the final complete mathematical physics, *Four-Sphere Theory*, that finally elucidated the true laws of nature. I am the great immortal genius who discovered universal human moral nature empirically far exceeding the imagination of Immanuel Kant and Friedrich Nietzsche and all of Western Intellectual Tradition from Plato and Aristotle. I can go on. But anyway, the important thing is that I am truly apologetic about this. I mean you can in fact stay in your bubble, but I am still much more important and valuable to the world than yourself.
