

GLOBAL POLITICAL PLATFORM OF HOLY STATURE OF TWO PARENT HOMES AND BOND BETWEEN CHILDREN AND PARENTS

ZULFIKAR MOINUDDIN AHMED

As traditional religion is breaking down, I want to propose a new Divine understanding that is Nature Oriented.

I want to claim that what is Holy is Two Parent Home with strong bond between Mother and Children and Father and Children. This is religion-independent Holy. It is Holy of Nature.

For both Mother and Father, it is 250 million year old system CARE that is primary for the formation of mother-child emotional bond, and similar for father.

We are in a totally anarchic phase of Human Civilisation where the laws do not recognise this fundamental Holy Relationship.

God is not so important in my conception as the notion of Holy and the rumination of the ancientness of the CARE system that is not a secondary element but primary to ensure that each generation of Children of the Earth are given a beautiful happy loving childhood. This ought to be more important than all sorts of commercial concerns. Obviously this ought to be considered infinitely higher in importance than all commercial concerns. It is a devastating failure of Civilisation that any Commercial Concern can even remotely compete with this basic fundamental need for Holy relationship between Mother and Children and also Father and Children.

We should burn down every goddam corporation that goes against this Divine Order for the Earth.
