

DECEMBER 14 2021: MESSAGE TO UNITED STATES GOVERNMENT

ZULFIKAR MOINUDDIN AHMED

So, United States Government, how are we doing today, huh? So I hear that my order to Eurasia to nuclear wipe the entire United States is going around in Asia. Too bad. Too bad. You should have killed Bill Gates instead of colluding with him to destroy me.

What are you going to do when in Asia, wiping out America by nuclear holocaust is the favourite topic of socialising?

So sad. So sad. Your 'hotbed of anti-Americanism' concept will have to be modified huh?

Those things happen when you don't kill Bill Gates when Zulf asks nicely.

Well cheerios. You don't have the skills to handle the fallout from this. Serves you right.

1. HEGEMONIC POWER DON'T WANT TO SUBSIDIZE THIRD RATE RACIAL CHARLATANS NOW HUH?

That's sweet. That's really sweet. The Hegemonic Power doesn't want to subsidize third rate racial charlatans now. How come this did not occur before the little brat used US War power against my body meta and almost killed me on November 4 2020. Why is the Hegemonic Power subsidizing third rate racial charlatans for forty years when he is killing and destroying non-white people's lives and getting confused when the great immortal genius Zulf with 24 years of Permanent Residency is accosted without justification and warning?

2. YES I CHOSE HUMAN RIGHTS WATCH LONDON SPECIFICALLY

You see Human Rights Watch London found that United States Government colluded with Bill Gates to destroy me. And you will find that they are resilient to your coercion, and quite zealous about prosecuting United States Government. Let me tell you a story. Long time ago, in 1600 English East India company was founded. This is before the Hegemonic Empire was not even an infant. You know George Washington wrote to Marquis de Lafayette in 1786:

"Altho' I pretend to no peculiar information respecting commercial affairs, nor any foresight into the scenes of futurity; yet as the member of an infant-empire, as a Philanthropist by character, and (if I may be allowed the expression) as a Citizen of the great republic of humanity at large; I cannot help turning my attention sometimes to this subject. I would be understood to mean, I cannot avoid reflecting with pleasure on the probable influence that commerce may here after have on human manners & society in general. On these occasions I consider how mankind may be connected like one great family in fraternal ties—I indulge a fond, perhaps

Date: December 14, 2021.

an enthusiastic idea, that as the world is evidently much less barbarous than it has been, its melioration must still be progressive—that nations are becoming more humanized in their policy—that the subjects of ambition & causes for hostility are daily diminishing—and in fine, that the period is not very remote when the benefits of a liberal & free commerce will, pretty generally, succeed to the devastations & horrors of war. Some of the late treaties which have been entered into, & particularly that between the King of Prussia & the U[nite]d States, seem to constitute a new era in negotiation, & to promise the happy consequences I have just now been mentioning.” [1]

In any case in 1600 the Hegemonic Power was not even a twinkle in your father’s eyes. And then England was formong the English East India Company. There was a complicated history between Bengal and England between 1600 and 1947 and I am quite fond of England in the end. I understand London mindset quite well, and they will be relentless about United States not securing my natural rights. England was not completely convinced that the lofty US Declaration of Independence Preamble was a serious statement in 1776 and their long suspicion that this was just empty rhetoric is a prize for the English in 2021 after 245 years.

How will the Hegemonic Power survive now. Do you really think that you can compete with an Archangel of Heaven, Hegemonic Power? I like that. I like spunk in some of these worlds. It’s good. Keep going.

3. I WILL EVISCERATE AND DISMANTLE HEGEMONIC POWER UNLESS YOU DESTROY BILL GATES SOON

Look, Hegemonic Power. I need to get out of Allen Texas and move to San Francisco and get my \$620 million earnings, legitimate –ask Janet Yellen if you don’t believe me – fulfill my American Dream. You have two options. Either totally destroy Bill Gates. Or be extinct, a haunting memory of Empires that are lost in the mists of human memory. You don’t have much time.

4. YOU UNDERESTIMATE LACK OF COMPLIANCE WITH US DECLARATION PREAMBLE AND INTERNATIONAL LAW

You have had it fairly easy United States Government. Since 1950 you have totally thrown compliance with US Declaration Preamble and International Law. No Eurasian Power can actually tolerate this. They did not know, and I will drive this to their consciousness so it becomes an obsession for them. They follow international law including human rights law. They will not be impressed at you letting Bill Gates destroy an American immigrant. You will have a precipitous collapse and disintegrate fast.

Kill Bill Gates right away.
