

**UNITED STATES OF AMERICA IS A MEANINGLESS SHAM IF
NO ONE IN WASHINGTON KNOWS THAT BILL GATES
OUGHT TO BE KILLED WITHOUT A MOMENT'S THOUGHT**

ZULFIKAR MOINUDDIN AHMED

Bill Gates cut into my eyes and has been harming me for more than a year. He claimed White Right to do such a heinous destructive abominable thing and no one in Washington knows what to do about it? And Bill Gates is glib and talking about it as though its not a problem. How is United States of America a legitimate organisation at all? What is everyone getting paid for in the US Government if my Natural Rights are not secured by the US Government, the stated purpose of the organisation in the US Declaration of Independence?

US Supreme Court what is the purpose of your existence exactly? What about Executive and Legislative Branches? How is United States of America a legitimate enterprise if a malevolent criminal cunt is able to cut into someone's eyes causing massing damage to my life and US Government officials are masturbating and confused about what the right steps are? Who is in charge? And why is United States taking taxes from the people if they do not actually uphold any civilised law? Why is Bill Gates still alive and harming me more every day? Why has he not been relentlessly bombed by the US Defense till his body is obliterated? Why is it not a matter of survival of the goddam nation to secure my Natural Rights when that is the only goddam thing that is the purpose of the US Government? You cannot do the only thing that is mandated for you in the US Declaration and you extort the population to pay for your limousines in Washington and your corporate expenses and fancy life styles? Are you fucking kidding me?
