

## WHY WHAT BILL GATES DID TO ME IS STRANGER THAN KRISTALLNACHT OF 1933

So Donald Trump riles up some white oriented people and there is Charlottesville. Then there is an election and Joe Biden sweeps with a strong majority and promises to prosecute white supremacists.

Zulf is working hard on things to get back on my feet after a decade of working on theoretical physics without my habitual yuppie income. I work on Finance, have great success. D. E. Shaw & Co. is trading my strategy with \$6 billion. I am owed, by D. E. Shaw & Co. \$120 million. I have plans to move and expand a company I registered on disability money.

America is looking pretty normal to me. Look, I have seen David Lynch's *Blue Velvet* about how strange things go on behind the scenes in a normal looking exterior. But I am a serious Finance professional and so I say, "Well, my Medium Frequency Strategy is Nobel Prize level genius, and I guess I could just set up trading my own show but better just take the \$120 million because D. E. Shaw has better infrastructure and besides, I want to do Psychology-Technology next and not Finance." D. E. Shaw is happy I won't give them trouble about how they screwed me over; I will achieve my American Dream. I've been looking at some lofts. I have plans to bring in a lover from Ukraine or Russia. Have a family. It'll be good. I've been living in financial uncertainty.

Totally unexpectedly Bill Gates invades my meta with US War meta and begins to do unbelievable damage to my deep interior and do enough harm to kill me by November 4 2020. I ask the United States government to intervene but they don't do anything much.

I am sitting there wondering. Hold on, we are in a Multi-Ethnic Classical Liberal Democratic Republic. Joe Biden swept the country and is against white supremacy. No Neo-Nazi takeover of the country has happened.

How in the Hell does Bill Gates totally randomly begin a meta war against me doing untold destruction, the United States Government knows about it and he is still free and 'prominent'. This is much worse than Kristallnacht because I check and determine that whites who are racist are roughly 9% of the country. What the FUCK?!! How is a white supremacist criminal attacking and harming a Princeton graduate Finance Professional in a Multi-Ethnic Classical Liberal Democratic Republic right in front of the entire world and the United States Government does not do anything to punish him at all? How does this even make any sense? He has no chance to take the country at all. He won't get more than 15% of the white vote. But he is in a war with all non-whites of the world.

Last time this sort of thing happened Germany was destroyed by war. What is the United States doing fostering a war where Europe will turn against us? I don't understand what these American Government white people eat to make them so stupid. They are just outrageous.
