

LETTER TO EMMANUEL MACRON AND OTHER EURASIAN LEADERS

ZULFIKAR MOINUDDIN AHMED

Dear President Macron,

I am an American. I immigrated to America in 1987 from Bengal at 13 and my life is an American life. I am writing to you and all Eurasian leaders to tell you that my country America has a pattern of behaviour that I find despicable, disgusting, criminal, and outrageously vile. We, America, plan all sorts of unprovoked wars, from 1955 the targets have been Asian, and we apply the same technique. We illegally plan aggressive wars, breaking Article 34, hiding behind our Permanent member veto, maliciously and deceptively pretending to be a respectable member of the United Nations. Then we don't have any reason to begin the wars so we manufacture one by self-sabotage. We did this in Gulf of Tonkin for Vietnam War, and we did this when we told the world that there were Muslim hijackers during September 11 2001 when in fact there was no hijacking in any of those planes. They were commandeered by remote control devices that were part of the technology of commercial jetliners, and the Twin Towers were brought down by demolitions. You can ask French investigators to look at interviews by Wesley Clark and others who knew that the war plans in the Middle East existed classified long before September 11 2001, and you can find that Israel's Mossad carried out the remote control and demolition.

In any case, I am Asian in origin and I am sick of our government's vile horrible plans to harm Asians continuously. I want you and other powers to drop out of NATO immediately and form Eurasian Defense, an alliance of Germany, England, France, Russia, China, and Japan. I want a defensive umbrella of entire Eurasia.

I also want prosecution of our government in America all the way to timbuktu and just fry these mother fuckers for war crimes right away for plotting and planning wars. The American People are totally in the dark about these evil destructive plans. American People want peace. But the Pentagon Budget was taken away from our control with NSC-68 after the war. We do not want these criminals on Earth at all.

Do this for Zulf. Get this Eurasian Defense Alliance right now. Prosecute these war criminals in Washington. My life was destroyed by these sorts of criminals, and the world does not need them even alive. If you can burn all these evil people at the stake, I will personally repay your kindness.

Thank you,

Zulfikar Moinuddin Ahmed

Date: December 4, 2021.
