

# **BILL GATES BEING BEATEN AND TORTURED AND PUT TO DEATH WILL IMPROVE SEX LIVES OF BILLIONS**

ZULFIKAR MOINUDDIN AHMED

Normally I am against torture, beating and putting people to death. But it's a good idea for Bill Gates. It will be a sexual stimulant that will spice up the sex lives of billions of couples in the world to watch such an event. It will bring out the animal in all the pussy cats who are not in touch with their animal nature and then the couples can fuck each other's brains out.

I was thinking about what Bill Gates worth is really, and I think he could serve the Human Race quite well by his torture, beating, and death as kinky sexual entertainment for us.
