

# ON SEPTEMBER 11 2021 ZULF COMPLETES THE PANORAMIC PUNISHMENT SEQUENCE BILL GATES DESERVES

ZULFIKAR MOINUDDIN AHMED

We want proper use of quite a few elements to design a great and just punishment for the insolence of Bill Gates against the Great American Genius Zulfikar Moinuddin Ahmed. He, of peasant stock, will have to suffer for his insolence, and I have been working on the elements.

## 1. INGREDIENTS OF BILL GATES PUNISHMENT

Let us enumerate these as (a) throwing to the Dungeons, (b) torture for many days, (c) being thrown to the lions, (d) being guillotined and beheaded, (e) being burned at the stake, (f) having tongue cut out, (g) being eaten by pirhannas. These are all necessary and without any of them the full aesthetic of punishment that Bill Gates deserves is not complete.

## 2. CHALLENGES IN PUNISHMENT

We do not want Bill Gates to miss out on any of these punishments by dying too quickly. Now we do need fireproof guillotine and pirhannas that do not have trouble digesting charred human flesh. We need lions that do not kill him completely but take chunks of meat from the still living Bill Gates.

## 3. WE NEED TO DESIGN A NEW COMPLEX

We need a new complex that includes a good Dungeon, an Amphitheater with both lion space and a pool of pirhannas, and a new design for Guillotine with burning at the stake simultaneously.

## 4. FUTURE USE: BILL GATES LEVEL CRIMES

We have to reclassify crimes to bad, very bad, murder in the first degree, mass murder, and then Bill Gates. That way, we can only give the Bill Gates punishment to extraordinarily deserving people alone.
