

## CONFESSIONS OF AN ARCHANGEL LIKE "CONFESSIONS OF A VAMPIRE"

ZULFIKAR MOINUDDIN AHMED

Some years ago I heard a lot of buzz about "Confessions Of A Vampyre" starring Brad Pitt as the Vampyre. I did not actually see it. My taste is generally more high falutin. I swear by Tarkovsky and Fellini and I actually *enjoy art house film* and don't do it to impress young intelligent impressionable but quite attractive ladies in urban metropolises from whom I would be seeking much more than a good shag which is sometimes just asking for too much.

Anyway, I'll outline this note quickly. Heaven does not make judgments to eliminate piddly nation states without due diligence, so even though racial murderer Bill Gates is supported by United States Government because "he's not a Prince but well-known here" United States Government is willing to toss their implicit contract with me in USCIS# 046-077-179, Permanent Residency from September 1997, and allow Bill Gates to use US War Power against an American etc. Heaven will be displeased – there are trillions of Archangels far away where I am better known than everyone on Earth who will fold their arms and ask, Archangel, explain. Hiroshima and Nagasaki, Korea, Vietnam, Iraq and Afganistan, around 11200+/- 223 killed without cause with drones in two decades. Where is the rest?

I will not do hard labour and ruin my reputation. You want a Divine Judgement against you United States Government? You are not important enough sonny boy.

You see, sonny boy, United States Government, you're not even 250 years old and you have some power and you abuse it to the hilt. *Reputation is everything* among Angels. No Angel in their right mind would invoke Divine Judgment of Heaven without full awareness of the never ending seminars and movies and finer points of moral judgment, about duties of Heaven and Archangels and you don't even know what else if they frivolously wiped out planets and nations willy nilly. You think Zulf wants this? I'd rather just let you kill me and never return to this primitive boondocks world for another ten thousand years. Then Human Race will be burdened with reputation problems and mine will be intact. I am known by all the most important Archangels in millions of worlds. What do you even know? You're a primitive little government in a primitive little planet far out of the way in the spiral arm of the Milky Way? How can you even comprehend the truth?

Keep sucking the dick of Demons like Bill Gates, why don't you.

### 1. FOR THE RECORD OF HUMAN RACE

I am an Archangel of Heaven. I represent Heaven. I do not represent Heaven in any 'official capacity'. I represent Heaven automatically wherever I am born. I was born on Earth November 19 1973. Now Heaven is not a primitive organisation. Heaven is extremely careful about finer points of Virtue and does not make

judgments that affect lives of billions of Angelics without care. In principle I could invoke Divine Judgment against all eight billion human beings and there would be a nontrivial probability that all human beings would perish. That's *in principle* but the important question is whether the decision would be just and meeting the high standards that have been cultivated by Heaven for literally billions of years. Except for this evil Demon, *Bill Gates*, I have been reluctant to consider many other humans for punishment. In the case of Bill Gates it's an easy decision and there are not repercussions. In other cases, much more work would be required. I am a Princetonian, and am gifted in Mathematics, in Science, in Finance, in Literature, and am not an international lawyer. I am reluctant to invoke Divine Judgment against United States of America despite misgivings, because I did not like the Genocide of Native Americans at all. But I am not forced to pronounce Divine Judgment invoking Authority of Heaven at all. I am free to evade the responsibility. And that is my preference. I have many gifts of Heaven already given, including the code for Life Satisfaction for all humans by Virtue. I am not impressed by United States support of Bill Gates. But it's not worth my effort to do a huge amount of work to eliminate the United States of America altogether. I will defer to the better judgment of Archangel Gabriel and others if they should choose to take up these issues. I am Archangel Zulf. I do not want to do that right now.
