

**JUNE 19 2021 GLOBAL GENOCIDE CONSPIRACY DETECTED:
COORDINATE AND SCAN ALL CONTINENTS FOR
COLLABORATORS AND CONSPIRATORS**

ZULFIKAR MOINUDDIN AHMED

This is Archangel Zulf. This is Archangel Zulf.

Thanks to Harvard and MIT Biology we have uncovered a Global Genocide Conspiracy of Bill Gates. Two districts of France had conspirators. Scan all Continents and do not make any glib ethnicity assumptions. We would like a full scan of North and South America, Africa, Asia, Western and Eastern Europe, Oceania, all continents. Seek Global Genocide Conspirators of the Demon Bill Gates.

FBI and Interpol do considers now with Hague. Keep all Human Rights Organisations up to date.

I repeat this is Archangel Zulf. This is a Global Genocide Conspiracy by Demon Bill Gates and his minions could be of any ethnicity. Use extreme caution.

Thanks, ZULFIKAR MOINUDDIN AHMED

1. POST SCRIPTUM

Do not underestimate Demonic Intelligence. We are Human Beings; our intelligence is neither higher nor lower than Demonic intelligence but quite *different*. Human Beings are *an Angelic Race*. Now Angelic Races can sustain against Demonic Races effectively, but our intelligence is very different from Demonic Intelligences. We have advantages and disadvantages. I have had many lives in many Angelic Civilisations, many far more advanced than Human Race. Never underestimate Demonic efforts. Once I was involved in the matters of an Angelic Republic, and things were looking good for us, and Demons literally exploded the star and killed me and everyone else on the planet. I learned my lesson then. Afterward I do not underestimate Demonic Intelligence.

2. MANIFESTO REGARDING ZULF'S FAITH

For many millions of years I have been an Archangel Soul. I have been to Earth twice. This life beginning November 19 1973 and another life as an Englishman between 1180-1300. But I have also had lives in many Angelic Worlds in the universe almost all quite far away from the Milky Way Galaxy. There are millions of Angelic Worlds, i.e humanoid worlds like Earth. The ones I have lived in tended to be quite a bit more *advanced* than Earth. This world is so primitive that the Senate of the United States does not even respond to my seeking security of my Natural Rights while I have actual papers for 23 years as Permanent Resident of the United States of America. That's *outrageously primitive*. I don't think in the past several million years I can eke out memorie of any Angelic World that is so primitive that the Senate would not immediately react to violation of Natural Rights of any Permanent

Resident of any alleged Republic. That's just totally outrageously primitive. No self-respecting Republic in the Civilised Universe would ever put itself in this sort of situation. So I do not get involved at all in political affairs on Earth. I am an Archangel Soul. I can lead *real* Republics, not this sort of messy semi-Republic with primitive tribal elements that cannot decide what principles they serve from one day to the next. See I would not have any patience for this sort of thing. I would probably just execute the entire government for incompetence if this sort of thing kept repeating. So Washington can breathe a sigh of relief that Zulf is not a serious player in United States politics.

Anyway, Earth is quite primitive, but the Human Race has very good potential in the next few millenia. I see good development here. It's slow to develop, it's too primitive and slow, but there is charm in the slow movement of things, all the rustic confusion has its charm too. I love Human Race. It's a baby race, only six or seven million years old. I have a soft spot for baby races. After some millions of years you appreciate the peculiar qualities of these babies.
