

**EUROPEANS WILL LOOK DOWN ON AMERICAN WHITE
PEOPLE IF BILL GATES CONTINUES TO HARM AN
AMERICAN NON-WHITE WITHOUT BEING CAST OUT OF
AMERICAN SOCIETY**

ZULFIKAR MOINUDDIN AHMED

In England, the government would have killed an Englishman who had done the harm Bill Gates had to me. In France too. In Germany. I am American. I have made public that Bill Gates is harming me with illegitimate powers, destroying my health and blockading my legitimate income of \$620 million. Now Germany, France and England may not know me personally, but they know that I have USCIS# 046-077-179, Permanent Residency since 1997, a quarter of a century. They know because they know the immigration system of America that I could have Naturalised in 1999, so I am equivalent to an American Citizen of decades.

When American White People do not ostracise a criminal murderer like Bill Gates harming another American, perhaps White People in Federal Government do not care, but the Europeans will care. They will care because they have to deal with similar issues all the time in their countries, and they know that American White People were wrong. And once they feel that American White People do not have Civilised values enough to keep giving social respect to these sorts of murderous criminals, they will not respect American White culture at all. They will consider Americans ragtag uncivilised gunslingers with Wild West values, the quick and the dead, and so on. It might be charming to them from afar in a way, but they will not respect American White people.

It is up to American White People to secure your reputation, not mine, and not Europeans'. If you want good reputation as Civilised people, you should not allow these things. I know this well, since I have had European lovers. They will not consider you as great as you think you are if you continue to allow lawless criminality in the country.
