

## WELL I RESPECT JEFF WALL SO I WILL TELL YOU

ZULFIKAR MOINUDDIN AHMED

I don't know exactly if it was the real Jeff Wall or not, but I spent some time in my dream with someone like Jeff Wall, and he was doing some cool artistic things with geometric cuts of newspapers and layers. I told him Mossad did 9/11 after a while. I did see I was surrounded by Israelis but I don't really care about that. You see, for me it's a small thing. Mossad set up explosives when Larry Silverstein leased Twin Towers, and executed remote control commandeering and faking phone calls from the planes well. New York Times put pictures of 19 terrorist hijackers. None of them had anything to do with any hijacking of planes at all. Mossad did not do it out of particular animosity towards Americans either. They knew that the Genocidal White Americans were planning Middle Eastern Wars. They did it to trigger them with public support for hatred for Middle Eastern people. And next up is East Asia again. I am getting mighty sick of this. They did that in the nineteenth century to native Americans. All of twentieth century they have been preparing for doing this to Asians. First Koreans, then Vietnamese, then Arabs.

All Asians are dear to my heart. I asked Asia to produce nuclear defense plans to wipe out all American cities simultaneously if even a small hair is touched in any part of Asia. These Genocidal White People will not stop otherwise. Totally savage destructive people. I am Asian. Asians invented Civilisation you stupid little shits.
