

WELL OF COURSE I WILL NUCLEAR HOLOCAUST UNITED STATES UNDER EXTREME CONDITIONS

ZULFIKAR MOINUDDIN AHMED

I am not an irrational Archangel of Heaven. If United States produces conditions to harm billions of people then obviously I will nuclear Holocaust the United States. I don't do those things in my basement exactly. I don't have any problems being engulfed in nuclear blasts myself either.

You see, you fail to understand. I am an Archangel. I have died in so many million worlds in billions of years that it's not a big deal.

Now do I want to nuclear Holocaust little nation states in little blue planets? Of course not. Why don't you avoid that by making sure that what Bill Gates did to me does not become a danger for two billion Asians?

I mean if you have a Nuclear Holocaust wish, United States Government, you'll get your wish. Instead, I would recommend not creating a situation where any Archangel in his right mind would just say, "Ok, that's just obnoxious. You're well off, things look promising, why the hell are these people trying to genocide the entire continent of Asia?" That's the sort of moment I say, "Ah, fuck it. Nuclear Holocaust the whole of America. Problem solved."
