

**WE ASIANS ARE MUCH OLDER IN CIVILISATION THAN  
EUROPE AND HER DESCENDENTS AND WE HAVE FAILED  
TO TRANSMIT CIVILISATION PROPERLY**

ZULFIKAR MOINUDDIN AHMED

Dear World,

Today I feel sad. I am saddened because I am American but my birth is in Asia. As you all know we Asians brought Civilisation to our beloved people, the Human Race. We, in Mesopotamia, in Egypt, in India, in China, brought Civilisation to this world, and we ought to have done a better job with *transmission* of Civilisation to these Europeans and their descendents. I am displeased by what we have accomplished. I look at this savage barbaric beast Bill Gates and I am filled with sadness. We ought to have done better. We are older and we ought to have taught these late arrivals in Civilisation from Europe better but we have not succeeded very well.

Thank you,

Zulfikar Moinuddin Ahmed
