

NOVEMBER 16 2021 EXCRUCIATING PAIN FROM BILL GATES WHITE SUPREMACIST TORTURE AND OTHER META

ZULFIKAR MOINUDDIN AHMED

I could not sleep at all. Breathing was very very painful. My entire body ached, and Bill Gates White Supremacist Torture and Other Meta were on. I did a couple of posters when I woke up.

I did not worry too much about which of the Abu Ghraib torture pictures I picked.

This one is necessary. I don't deal with weapons. But if they push people with their refusal to kill extremely dangerous harmful criminals, what choice do I have. A man has to do what a man has to do.

American White People I think are unable to really care all that much about non-white people suffering or harmed by other white people. At best they meekly will say 'You shouldn't do that' but nothing more. You need to push a bit to get any sense of responsibility that they have when they are protecting the evil white people among them and allow them to commit any atrocity.
