

LETTER OF NOVEMBER 18 2021 TO TED CRUZ

ZULFIKAR MOINUDDIN AHMED

Dear Ted Cruz,

My letter to you in Senate email was for all Senators. You ought to just let the entire Senate decide since Bill Gates is prominent. If you have any questions, use my email address zulftlyselfdna.com rather than phone because my beautiful Samsung S10 is totally off since I stepped on the end of the power cord by mistake. I am living on disability and Bill Gates successfully starved me of all income. I have reached my American Dream fair and square. I am a Finance professional from 1995 (Lehman Brothers, worked for Andrew Morton, Quant) and was Vice President of Gresham Investments in New York in 2006-7. Bill Gates is totally stupid and incompetent in Finance and has no business intervening in Finance professional activity. He once literally called Finance a parasitic activity while talking about his friendship with Warren Buffett. He has invested \$2 bn in my work with D. E. Shaw & Co. But that gives him no right to forbid my income. His rights are in the fine print of fund management; they are to the returns that are listed in the fund, not to D. E. Shaw's own money. It is D. E. Shaw & Co. that owes me \$120 million and not Bill Gates. I would not do any business with the snot-nosed little illiterate hick in a million years. And certainly European Central Bank money is not his either. Do not be fooled by this career criminal Bill Gates. He is a total fraud, cannot code worth diddly squat and lies about his SAT score which you can find was 1290 not 1590.

Thanks,

ZULFIKAR MOINUDDIN AHMED
