

**GOOD ASIA ASK UNITED STATES FORMALLY IN UNITED  
NATIONS SECURITY COUNCIL WHETHER BILL GATES  
REPRESENTS US OR IS CRIMINAL**

ZULFIKAR MOINUDDIN AHMED

Bill Gates has been cutting my eye in Asian side in my deep interior. This is a *hostile act* to Asia since I am Asian-American but my Deep Interior being harmed affects millions in Asia.

Asia, ask United States formally in the United Nations Security council to make extremely clear whether Bill Gates hostile actions against Asians *in Asia* done indirectly by harming an Asian-American in Allen Texas (a) represents United States policy, or (b) does not represent United States policy *and Bill Gates is in criminal violation of US laws*.

Depending on the *explicit formal answer*, seek redress in appropriate manner.

Now United States Government, no one wants to hear that "Well, he is violating our laws, but we don't know how to deal with it." You could have asked for assistance from Asia and Europe a year ago.

1. LET ME DISABUSE YOU OF ASIAN SOPHISTICATION

Asia *invented Civilisation* in Mesopotamia. India alone has had Civilisation with literally hundreds of ethnicities for thousands of years. United States is not even 245 years old, and has not even managed to produce a peaceful just society with whites, blacks, hispanics and Asians.

Do you really think your primitive white ethnic prejudices will impress Asians now, after you had pretended to support human rights while plotting genocidal wars in Asia from around 1950 nonstop citing "Cold War" as your excuse?

Be clear that your white privilege and prejudices look quite menial and barbaric to the Asians.
