

I TAKE TRUTH AND HONESTY AND JUSTICE VERY SERIOUSLY WHITE PEOPLE IN AMERICAN GOVERNMENT

ZULFIKAR MOINUDDIN AHMED

I have habituated to truth and justice and fairness from childhood. I went to Princeton where Honour Code had these. I thought American Government cared about these, since those are in the foundations of this Nation. Now if the White people in American Government are confused, you should understand that people like myself are physically disgusted by liars and deceivers and find them despicable and low. We are unable to react in other ways. If you have indeed deceived me and lied to me, you will not be treated with respect at all by myself, and quite quickly every one of 4.5 billion Asians. You reap what you sow. We do not respect liars, deceivers, malevolent people, cheaters and murderers.

1. WHAT DO YOU MEAN MANY AMERICANS ARE NOT ENTHUSIASTIC ABOUT KILLING BILL GATES?

Who gives a damn what many Americans are enthusiastic about killing Bill Gates or not. The man committed capital crimes so the government offs him? Who cares about enthusiasm of the crowd. You routinely put to death a large number of people mostly black in justice system. You don't look for enthusiasm from 'many Americans'. What planet do you think you live in White People in American Government. Why are you worried about gossip instead of doing your goddam job?

2. I SEE ILLUSTRIOUS PREDECESSORS OF GENERAL DAVID BERGER IN WIKI

Well, General David Berger, you see I was in boarding schools in Bengal from when I was a wee boy, first in Dhaka, and then in Chittagong. My parents were unable to get their life together enough so they continuously sent us off to various boarding schools. The second stint at one of these, Chittagong public school was semi-cadet and enforced discipline. I hated it. They made us have cold shower at 6 am and then pray in the mosque before a long run and then classes. I was already Atheist by 1979 and despised praying. The older boys could punish the younger boys to secure ranked discipline. The punishments were usually staying in push-up position for some time. I did not think highly of all that. Then at 11 I got shot when I was back in Dhaka living with my mom, in Lalmatia. I was in Scholastica a reasonable school with many prominent people's kids. Then a year later I was in America. I had no interest whatsoever in military affairs or guns at all. This turned out to be a boon, a blessing, for there were a lot of kids at John Adams High School who wanted to be masculine and tough and got into trouble as teens with guns. So you understand, United States Military has no chance to prevail against me at

all. Your tools are not able to touch me. Your minds do not have the capacity to respond to my powers because they come from far away from military powers.

You have to understand, General Berger, that even when I was sixteen, and there were tough guys in queens who would mug unsuspecting immigrant kiddos like me, I was averse to getting fire-arms for myself for protection. I was introverted and studious. I did not even get interested in women till later at Princeton. So I don't really have a habit of supporting wars.

Years after Princeton, I was in San Francisco working as Scientist II, at a pharma biotech, near Genentech. Biospect, later Predicant, in a Ph.D. level job. Nights and weekends I studied things of interest. Then Iraq war began in 2003. I was not political at all but was distressed by the reports. I joined International Socialist Organisation then, in San Francisco Mission, and took part in anti-war demonstrations.

The sort of 'threat' I represent is far more dangerous than any physical threat. I will totally erase United States of America from its roots and eviscerate it unless you show respect for US Declaration Preamble. You see, my Life, Liberty, and Pursuit of Happiness are Creator-given rights and if you don't secure them, then American Government can kiss its existence goodbye. There is nothing else you stand on.

3. LOOK DAVID BERGER ALL POST-1945 WARS WERE JUST WHITE CONQUEST WARS

Let us not be naive, General David Berger. Manifest Destiny was not exactly the same sort of people as Thomas Paine and Thomas Jefferson and the Romantic Idealist Universalists. They were based on some idea of White Conquest that began with wiping out Native Americans and enslaving Blacks and since 1945 had been about Manifest Destiny and Asian Conquest. These wars are no different from expansion of America to Texas and California. You can pretend however you like that they were something else. But I know better and you know it too. No one believes the lies about 9/11 – that Muslims had some hijacking for them; no one believes that Gulf of Tonkin was Vietnam. We see through these transparent and childish lies.
