

**ZULF WILL DELIVER LIFE SATISFACTION FOR THE WORLD  
FOR \$0.5 BILLION INVESTMENT HERE ARE MY TERMS**

I am a Princeton Man who successfully completed magna cum laude at Princeton 1991-1995 and Princeton has an Honour Code. I never violated Princeton Honour Code. I have no criminal record. I was jailed for a couple of days in 2008 for *sleeping at a park bench* in the evening when I was hobo. Other than that I shoplifted twice. First just for fun as a Columbia University graduate student and later a pack of tarot cards from 5th Avenue 18th Barnes & Nobles. I will not do this again because I thought about stealing. I never stole anything otherwise in my life. I am 48, so that's my record. I am Honourable and Virtuous otherwise. I follow American Law and other applicable laws. I believe in Natural Rights of all people everywhere and would be reluctant to violate them.

I am looking for \$0.5 billion investment and I am offering returns over time and I will take 1.5% of the capital and 17% of the profits. I will not accept all sorts of arbitrary unwritten rules or large number of regulations that are not just ordinary Republic Laws. Those constraints are not worth my time. I have plenty to do without bullshit red tape. If you will only give me investement under a lot of terms and conditions, move along.

I want \$0.5 billion in Deutsche Bank invested in Treasury Inflation-Protected. I want no hassle at all on how I manage the funds. I also do not want people who will pull the money out in a year. You are investing in Global Life Satisfaction. I need to provide job security to my people. I don't like getting people involved who trust my leadership and then suddenly find that I cannot protect their livelihoods after they put in their commitment and work.
