EXPLAINS WHY BILL GATES IS A SCRUBBY LITTLE SHIT**

I am a great immortal genius. I have been in America for 34 years, am a Princeton graduate, have sacrificed tremendously for four-sphere theory which is verified successfully on empirical issues, is archived, at great cost to me. I have made gigantic pioneering discoveries such as empirical validation for Universal Human Moral Nature, and today the first quantitative laws for Universal Human Emotions far beyond what the Psychology of Emotions extant for the past century can even imagine as possible *in Nature*. These are my laws, my achievements, and there is no doubt in anyone's mind at Stanford or Harvard that I am a great immortal scientific genius.

Now usually Civilisations treat people like me well because we are productive geniuses who are an asset to the Civilisation. I have personally made more advances in Science than almost *all Nobel Prize winners* in Science.

Bill Gates not only used illegitimate black magic to cut into my Deep Interior with intention to harm and destroy me with great White Racial Supremacy zeal but in meta he stole money disrupted my Ancestral and Family meta, denied me legitimate income of \$620 million from professional work in Finance, made money off my work with D. E. Shaw & Co. and denied my money when my mother is bedridden and close to death.

He is a scrubby little shit who is not even worthy of being kept alive by the United States and does not belong in Civilisation at all. How does United States of America expect to be respected if the state will consider this to be valid treatment of a great immortal genius?

Bill Gate is a savage barbaric uncivilised brute, a vile disgusting low cunt, and he is not even worthy of joining Ostrogoth savages. Who the fuck steals *shoes* from personal meta of anyone. Even lowlife bandits are more civilised than this.

1. WEST MISTREATING ME HAS HARSH CONSEQUENCES

Clearly West is mistreating me and not neutralising a vile genocidal criminal when I am Asian-American. You see my work, four-sphere theory, work on universal moral human nature, and the latest discovery laws of universal human emotions, work on completion of Virtues and empirical evidence for higher life satisfaction, these together form the basis of a far superior science and implies a superior *technology*. In the end this will permanently allow Asia to gain an edge over Western Science and technology that they will hold for many centuries. West ought to feel fortunate that I am here in America, and treat me well, ensure that my money, \$620 million is given, ensure I am comfortable in San Francisco. Instead West has decided to allow Bill Gates to harm me. It will lead to West being considered

shabby, barbaric, superstitious, backward in Science and Technology since my work will be hailed as Asian since my origin is Asia.

I don't know why West wants to do that, but I don't really give a damn either way. If West wants to sink, you will succeed.
