

GERMANY DESTROY BILL GATES IMMEDIATELY

ZULFIKAR MOINUDDIN AHMED

Germany I am displeased with your decision-making. You were equally unwise in the 1930s. Bill Gates has used German War Power against myself, an Asian-American in vast quantities for more than a year. You have to eliminate him physically. Otherwise my ability to protect you from being behind a White Supremacist World Order is limited. Don't pussyfoot. Whack him. Assassinate him immediately. Never mind what American Government thinks. You will not recover at all if I die. My deep interior is filled with German War power stains. Hanover blood clotting was used against me as well. Bill Gates will destroy Germany in a few months more. You have been warned. I can assure you that you will be blamed. Totally wipe out Bill Gates by assassination. Do not compromise.

1. GERMANY I AM YOUR FRIEND

I am your friend but your bad decisions, such as not eliminating Bill Gates with lethal force immediately after finding that he used German War Power against an Asian-American was so poor that I am going to raise the probability that you are not actually serious about United Nations Laws, and are quite okay if you are *seen to be innocent* and allow Bill Gates and White Supremacist use your War Powers, Hanover Blood clotters and others to push for a White Supremacist World Order.

You are very foolish if you are deceiving Zulf and the world in this way, for *not destroying Bill Gates* does not give Zulf greater faith in you, Germany. I won't give you too many more warnings.

What I will tell you is that I do not want Western Civilisation in smouldering ruins. Now you might be quite habituated to Western Power dominating the world, but I will personally arrange that Western Civilisation is in smouldering ruins if I see one single hair of Asia touched again, do you understand clearly? No one will start a war in Asia. Is that clear?

2. LOOK MY BREATHING IS LABOURED NOW

Germany it is true that on Earth West has had quite an advantage in Power for some centuries over the East, and so you might feel a little too comfortable. You might feel that so long as you pretend to be distant from racial supremacy ideas, and let *Bill Gates* and others carry it forward keeping your own hands clean, you can wait and see and if Racial Supremacist World Order is produced by Bill Gates and his conspirators in American Government, then what harm is there? You can be the *Nicer Liberal Wing* of a White Supremacist World Order and Asia will be snuffed out and you will be sad and be the soggy conscience of the Brutality of American Racial World Order, and mildly criticise these awful Racial Americans

while enjoying the fruits of a Racial World Order with all manner of liberal useless hand-wringing.

Let me tell you something Germany. I am an Archangel of billions of years young kiddo. I have died in worlds where Demons exploded the star of the system of tens of billions personally. Your sort of thinking, this "I did my best but what could I really do when German War Power and Hanover Blood clotting was used in Zulf's Deep Interior we didn't really want it" is not going to cut it with me. Either you whack Bill Gates right now or the moment even one of your war planes or military units is on a routine sightseeing tour over Mongolia I will totally wipe out all German Civilisation and burn all the lederhosens in the tailor shops in addition. Do you understand? Berlin and Bonn and Munich? They will be a haunting mythological dream. Do you understand?
