

## AMERICAN WHITES YOU DON'T NEED DEMOCRATIC VOTES OF 200 MILLION JUST DO VALUE ANALYSIS

I can give you estimates. Look at whether murder of other people ought to be punished. Bill Gates explicitly plotted my murder by UN Human Rights consider with D. E. Shaw & Co. present. He believes that he has the right to kill any 'little guys' and any non-white person at will.

You can do further value analysis. He is actively engaged in attempting to enslave me. Ask 200 million whites "Is slavery of non-whites justified, and should rich white enslavers be punished as crime against humanity?"

You can produce a sieve of values and then estimate whether the verdict would be kill him or not kill him based on values of 200 million Americans. You see 90 percent of Americans strongly support Natural Rights Security and so the verdict when you add his crimes in meta will be in that range, around 90 percent will in the end vote to kill him.
