

**ZULF WARNS UNITED STATES GOVERNMENT THAT I  
MIGHT HAVE TO ERASE AND DISSOLVE UNITED STATES OF  
AMERICA ON RATIONAL GROUNDS UNLESS YOU WIPE OUT  
BILL GATES IMMEDIATELY**

Bill Gates destructive harm with the purpose of destroying my life is a bit too overwhelming to my body and health and I realise that I might be permanently unable to do daily tasks at all and not have my \$620 million legitimate earning from Finance and no tenure letter from Stanford.

I was granted my natural rights of Life, Liberty, and pursuit of Happiness which are inalienable and I have to hold their security higher than existence of United States of America on rational grounds.

I urge the United States Government to immediately totally destroy the criminal aggressor Bill Gates. If you fail to do this, I will naturally seek immediate dissolution of and end of the United States of America.

The founders of America were aware that the nation's legitimacy relies on having the purpose of government be to secure natural rights. Unfortunately my life and health and endangered and I cannot be sympathetic to your continued existence at risk to my life.

1. UNITED STATES GOVERNMENT MUST ACT OR FACE REVOLUTIONARY  
CHANGES

I heard one bright point so far. Now Bill Gates has been a white racial supremacist for his entire life, and he does not respect United States or International Law, and has accosted an Asian-American man, USCIS# 046-077-179, who has a strong good record of (a) following the law, and (b) was pursuing his American Dream when the assault began more than a year ago. If, *on rational grounds*, United States of America does get dissolved, those grounds, that I am providing are based on *Universal Natural Rights Security*. It is unlikely that Bill Gates will succeed in his goal in that case, of being a tyrannical monarch ruling the world by his murderous whim. Instead, there will be concerns that United States Government is incapable and unwilling to secure the Natural Rights of 330 million Americans and is a significant threat to the complement of the 7.5 billion human beings of this planet.

You see, United States Government does not seem to understand that 'human rights' is not a rhetorical device, but is the source of political legitimacy. This was theoretically quite clear to the founders of America, and it is today more clear to Asian nations than it is to our government in the United States. This is not surprising, as the bulk of humanity, 4.5 billion, live in Asia, and although United States Government pretends to care more about natural rights of people, the

genocide of native Americans, the slavery of black people, constant destructive wars in Asia conducted by United States, in Korea, in Vietnam, for the past two decades in Iraq and Afghanistan, the 12,000 people killed without trial by jury and habeas corpus by American drones in Asia, all of these give a clear understanding that United States Government does not consider natural rights of people important.

And now the dramatic denouement of this facade, the test of truth: does United States Government care about my natural rights when I have Permanent Residency from 1997, expiring now in 2031 and live in Allen Texas when it is accosted by one of vilest murderous white supremacist deceptive charlatans and most evil human beings ever born to this species, *Bill Gates* or does it falter, and dissolve?

Time will tell.

Thank you,
