

BILL GATES IS BENEATH MY CALIBER IN SCIENCE, MATHEMATICS AND EVEN CODING AND EDUCATION

ZULFIKAR MOINUDDIN AHMED

1. BILL GATES IS BENEATH MY CALIBER AS CODER

These are obvious but let me clarify this. Bill Gates is *not a coder* of great merit. I have dealt with him for more than a year and he has shown very bad judgment in coding. He was never actually good at coding. But he is particularly bad at dealing with modern coding structure and technique. He literally was unenthusiastic about my use of Node.js and Meteor rather than C code for my prototype for showing results for Positive Psychology questionnaire-based app [1].

I am an *expert level coder* in C++ and object oriented coding and have studied Bjarne Stroustrup's *Design And Evolution of C++* as well as *Design Patterns* of Erich Gamma et. al. And I have been using template programming and STL from 1995. I evolved to Python, R, and Node.js along with the industry. Anyone in 2020-22 who recommends C for any of this is not even going to get a junior level coding position at a respectable show, and I worked directly as the sole Senior Software Architect for Robert Reich's *Ecosystems Inc.* in 1997 which was based on SGML and other document management. My code you can see is extremely good structural design and is tested for roundtrip in MongoDB repository. Bill Gates has shown me no evidence at all that he is any good at coding. I took a Codility exam in 2018 for *Swirls* and got an A out of A+ in the exam. So I am still sharp enough to lead larger software efforts. Bill Gates was never any good at coding and is a pathological liar about his coding abilities. He might know how to manipulate power to harm people physically but he's not a competent software engineer. Microsoft code is third rate and I would never work for them at all.

2. BILL GATES HAS NO SCIENTIFIC TALENT

My Scientific genius was noted from award at Westinghouse Science Talent Search where I won third place in high school. At Princeton, I opted out of Science requirements since I had 5 on both Chemistry AP and Physics BC from high school and turned to pure mathematics and literature and humanities. I did not return to natural science till around 2002 where I took a position in Biospect. That's around 11 years from direct natural science interest, but between 2002-2008 I had deepened my education in *Philosophy and Sociology of Science* with interest in history – Thomas Kuhn and Paul K. Feyerabend and Imre Lakatos were high on my priorities till in 2008 I began to conceive of Four-Sphere Theory which was wholly and completely my own idea without any external input at all. This succeeded in about a decade of sacrifice and toil and sufferings and adversity and indignities, so I am extremely sensitive about credit for it. My genius in physics is straightforwardly

better than Albert Einstein's and Erwin Schroedinger's because my success is clear [2].

Bill Gates has absolutely no ability in Science whatever. He cannot even understand inference from a Gaussian when it is presented directly to him. He has said multiple times in meta that 'Scientific theories are arbitrary'. I kept repeating evidence that the human race is a single race and he is too unintelligent and ill-educated to grasp the issues.

3. BILL GATES HAS NO SIGNIFICANT MATHEMATICAL TALENTS

I have challenged Bill Gates to compete with me and show that he can do the Stanford Mathematics Ph.D. problems and I have done around four so far quite well enough to pass. Most recently I did Spring 2010 Analysis which is published in my archive and sent out to Stanford Mathematics faculty with timestamps. There are some issues but I am able to do these problems. Bill Gates has not attempted to do any of them and called them 'trivia' as though calling things trivia will compel rational neutral judges higher ability to the person than someone who shows their actual abilities.

4. OTHER SIGNS OF LOW INTELLECT

Bill Gates insists that Hammurabi was white. He also insists that United States won the Vietnam War. These opinions are signs of a feeble intellect.

5. BILL GATES IS FAR LESS EDUCATED AND CULTIVATED THAN MYSELF

Bill Gates is a *college dropout* and lies about his SAT score. His SAT score, I have found is 1290 which is respectable but he promotes that he had 1590 which is not credible to me. You see, people who get 1590-1600 are finicky people. I am not one of them. I know many, however, from Princeton, Harvard, Ross Program at OSU. I got 1450 on my second try. I am not finicky enough for 1600 but I am capable of getting it; I did not enroll into any prep classes for it. The type who gets 1600 are extremely finicky about being precisely correct. Bill Gates is more of a criminal mind. He does not care about being correct, but on being murderous in surreptitious ways and causing physical harm to people and destroying their interior by malevolent and savage weapons. He used US War power against myself to harm my physical body. That's not a SAT 1590 behaviour. They are more proper in their behaviour.

He thinks Edgar Allen Poe is better than Rainer Maria Rilke. No one who has any cultivation will consider this the opinion of a deeply educated man who knows poetry. He's worthless in his education and totally tasteless. He is a pathological liar and a Symphony of Vices while I am Virtue-oriented and extremely proud of my Honesty.

6. BILL GATES IS HABITUATED TO KILLING PEOPLE BY EXERCISE OF ILLEGITIMATE POWER

Bill Gates has routinely for forty years used US War Power, White Power, US Industrial Power, to kill and liquidate people considering it his right as a 'big man' and as 'white right' to kill people. I am extremely concerned that I will be killed by his efforts when in custody of mental hospital staff who will try to convince me that I am hallucinating while I am now 1000% convinced that I am not and when I

perish under their custody they will claim that it was covid or some other thing to cover their liability. I do not trust these mental health incarceration organisations at all. I believe that FBI has wrongfully accused me of trumped up charges and are deliberately and intentionally causing harm and even putting my life in danger knowing full well that Bill Gates (a) is a white supremacist with hateful view towards non-whites and (b) has a white supremacist global agenda, and (c) has been obsessed with harming me in particular for more than a year with destruction of my ethnic meta including that necessary to sustain my daily life. He had a plan to murder me that he revealed to David E. Shaw that was uncovered by UN Human Rights consider.

In a few hours I will be accompanied to mental health custody from which there is a chance that I will never return. I want the world to understand that this is *political repression* pure and simple and not any legitimate exercise of government powers.

7. BILL GATES POLITICAL IDEOLOGY IS INFERIOR TO MINE

My political convictions are coherent theoretically with Thomas Jefferson and some of the other founders, but they are really influenced by purer sources of the Romantic Period such as Percy Bysshe Shelley. *Prometheus Unbound* has a profounder influence on my soul than any organised religion. In fact between 1979-2008 I was Atheist, not even agnostic. I have a strong religious faith now of my own. I believe that all men are created equal, literally and have the strongest scientific arguments for them that are original work in themselves. The interpretation is that right at conception, when the DNA of the fertilised egg is formed for the first time, G_c , the universal human genetic code in common, shared by all, and 99.9% in terms of total DNA base pairs, ensures equality of all people everywhere *instantly*. This is mathematical truth, and this was not known before 2000 at all. But in the past two decades, especially because of my Scientist II position at Biospect/Predicant, I have examined some issues of human molecular genetics. This is hard-core truth, so modulo 0.1% of the genome *every single person every born in past, present or future* have this universal equality. This is a strong and simple fact that was never known before, and so the rest of US Declaration Preamble is actually justified, although not the horrible text about Native Americans. From liberal moderate opinions I had shifted in 2002-5 in San Francisco to revolutionary socialism, and then detached myself and am now fully universal natural rights oriented in my political views. I have been actively thinking about political firm foundations for many years.

Bill Gates' 'whites are superior' ideology is just outrageously stupid. He belongs politically in 7th century Hebrew times when people literally thought that one has to kill every man, woman and child of some opposing tribe. I represent universal human race, a far more advanced and enlightened stage of Civilisation with careful attention to best knowledge of ethnicities and human evolutionary history. His political views are just total junk.
