

## HOW MUCH MORE IS MY LIFE WORTH THAN BILL GATES?

ZULFIKAR MOINUDDIN AHMED

By my assessment, my life is worth 330 million times more than Bill Gates' life. I am quite serious. Bill Gates ought to have been slaughtered in a bloody splatter immediately after birth. I am a great immortal genius who has done a great deal more for the human race than he has done in his lifetime.

This justifies my order to Eurasia that if United States kills me, Eurasia should nuclear wipe the entire United States of America. There is no apology at all about it. Things happen. Fate is mysterious. I wish all Americans a happy past-death situation, and the universe has many wonderous places. Never think that death of the physical body is the end of life in the universe.

As you know, I died in one world when Demons blew up the star of the world and tens of billions perished. It's annoying for a while but after a while you overcome your outrage.
