

ZULF'S FEBRUARY 17 2022 5:35 PM RUMINATIONS ON TRUTH

ZULFIKAR MOINUDDIN AHMED
ZULFIKAR.AHMED@GMAIL.COM

I am now 50 years old, and closer to death than to birth now. As I examine my life between 1973, from my birth, to today, I realise that one of the driving forces in my life had been *Truth*. In four-sphere theory, my greatest achievement, I have found the truth of Nature, the Final Theory of Physics above $\delta = 10^{-15}$ cm. Truth is obviously broader, and this is now more interesting to me. I have found the Universal Moral Nature of human beings, and was pleased to find that this is an *Angelic Race*.

One of the great pleasures of Mathematics is the understanding that *Truth is subtle and difficult*. For scholars of Mathematics, this is nothing strange. But I think outside of Mathematics there is not as great an appreciation for how truth is not simple at all, even in Science it is not as clear. And in Social Sciences and Politics it is extremely opaque.

I have been unfortunate to have to have experienced life in America after Israel's Mossad sabotaged some buildings in September 11 2001 to trigger some wars in the Middle East that were classified by Washington, and I was too naive to examine the sorts of vile deception that Washington engages in that had enormous destructive effects on my life in America in ways that were too difficult for me to understand. Government and newspapers of record in America and television and people were constantly lying about September 11 2001, and the entire nation was in total delusion, and this caused great hardship for me personally in my life. I am not amused by this at all. It literally took me more than a decade to decipher the truth, and I am extremely displeased by the conduct of our government and our newspapers and media about deceiving the American public and lying to the world.

1. ACCUSATIONS AGAINST BILL GATES

Truth begins with the self, and I want to list some of the accusations of crimes of this evil, savage, barbaric, destructive, abominable, murderous, lawless, criminal son of a bitch *Bill Gates*. Bill Gates, who knows less about Finance than a slug and a chipmunk, dared to exercise illegitimate powers to totally destroy my Finance career meta. I have been a Vice President at Gresham Investment Management in New York at my last employment in Finance, and I am owed \$120 million from D. E. Shaw & Co. and I am gifted \$500 million from Madam Christine Lagarde of ECB that he blockaded, invaded and destroyed my interior meta with full support of his corrupt white supremacist cronies high up in United States Government, despite my repeated requests to the government to secure my Natural Rights and protect my pursuit of the American Dream. They instead valued this worthless charlatan instead of a far superior American man, myself. I am far more educated

than Bill Gates; I am far superior in my Virtues and Character than Bill Gates; I have far superior *leadership talent* than Bill Gates. I have far superior moral values than Bill Gates; I have far superior record of adhering to the laws of the Republic than Bill Gates, and yet, despite my clean record, the insolent criminal White World Order enthusiasts in United States Government used their authority to assist him in sabotaging my Life, Liberty, and pursuit of Happiness that was *their responsibility to secure*. Bill Gates ineptness in Finance is in glorious public display as he had publicly pronounced that Finance, profession followed by six million respectable and good people, is a matter of *parasitic* act involving something to do with *volume curves*. I have been in Finance since I graduated from Princeton University in 1995 starting with a position at Lehman Brothers Fixed Income Department under Andrew Morton. And I can assure my readers that Bill Gates would not even be admitted to a lowly junior position in Finance. And he is allowed to disrupt my career in Finance with backing of corrupt United States cronies of his when it is extremely clear that he is a lawless criminal conspiring White Racial Dominance world order and has lied about his intellectual caliber all his life. This is not tolerable to me at all.

I am slowly gaining some appreciation for the centrality of emotions as an open frontier for *universally valuable application*, and to elucidate Truth of Nature. This is what is driving me at the moment, that *emotions* and its relationship to art and poetry as well as life satisfaction is an open frontier still as I have already cleared up Final Theory of Physics, Universal Human Moral Nature, full set of Virtues necessary for Life Satisfaction of all individuals on Earth.

Now I want to explore deeper Universal Truth regarding human emotions and the improvement of well-being of eight billion lives.

I am deeply disappointed that United States Government had not immediately eliminated Bill Gates with lethal force immediately after he invaded my Blood Meta with criminal intent repeating slogans like 'whites are superior. whites are superior'. But unfortunately I did not corrupt the United States Government, and I must endure this horror in America and bear the responsibility of Conscience to warn the world about the dangers from White Racial Dominance World Order that is not apparent to many of my beloved human race.

2. BILL GATES IS THE MOST DISGUSTING HUMAN BEING EVER BORN ON EARTH

Bill Gates had destroyed my ethnic meta, invaded my deep interior and drones on and on all day and all night with his intolerably disgusting voice, "Whites are superior. Whites are superior." Nothing more disgusting and abominable and intolerable can anyone ever contemplate than this disgusting presence in their private sacred space. There is nothing more totally criminal than what the United States Government has spawned, this ugly disgusting, vile, savage, abominable, criminal, horrible, yucky man, totally criminal charlatan, droning on 'whites are superior. whites are superior' day and night and day and night. I cannot understand why the United States Government would do this horrible unconscionable thing to me and keep this miserable wretched worthless intolerable Bill Gates alive after his horrible wicked evil crimes. Why should the United States of America continue to exist after this? Is there any reason to keep this illegitimate nation that lies and defies its own charter around?

3. A VIEW OF PLACE OF HUMAN EMOTIONS

One of the truths that have not yet been established yet among the global population yet, for it is a truth that will require further scientific attention before coming fully known, is that emotions have evolved with mammals 251-201 million years ago, and so they are primordial from the perspective of the current age of human race. They are deeply ingrained in our DNA genetic code and much of their mechanism is in G_c the fixed invariable universal part of every human beings' genetic code constituting 99.9% of it. This is a broad statement.

I have been examining the psychological scholarship on emotions recently, as this has grown from around 1960. Psychology did not pay attention to emotions until the past half a century roughly and before that emotions were much more discussed by dramatists, poets, and literary artists.

I am interested particularly in the Romantic Era theories of emotions and its relation to poetry. This is a personal interest for I venerate Percy Bysshe Shelley as an immortal poetic genius who has influenced my own world enormously, as well as Modernists like Thomas Stearns Eliot and Rainer Maria Rilke.

I have mourned the death of my own father in 2002, and have had many loves and losses in my fifty years and as a result am familiar with the place of intense emotions in my own life. But my interest in emotions is not particularly focused on the gritty emotions of joy and despair of particular events of the mundane world. My interest in them based on a conviction that *emotions are not understood yet in a clear and deep way yet by the human race* and that *there exist profound truths that are universal to be discovered about emotions*, and that *Romantics had ideas that are valuable to lead us to these truths* with the goal of transformation of the knowledge of human beings that will elevate my beloved people and allow more fulfilling lives for all people everywhere on Earth as a result.

I have not made the journey of discovery on these issues yet, and I am hoping to have some certain answers along the way. So these are not notes I write to report any triumphs but rather slowly start to examine the landscape of these issues. Success here might come in a few years. Or it might be another century before sharp crisp understanding is obtained. This is the start of a journey of exploration rather than the end.

4. MY MOM IS DYING BECAUSE OF MALICE BY UNITED STATES GOVERNMENT

By allowing Bill Gates to harm my person and sabotage and obstruct my legitimate income, I am unable to provide medical services that would have kept my mother alive and I am stranded in Allen Texas on disability income alone *instead of \$620 million earned legitimately*. My mother will die soon from preventable causes. I will obviously blame the United States Government for her death and I will evaluate what manner of retribution is suitable afterward. I am not pleased with what United States Government has done to harm me by their support for one of the worst human beings ever born on Earth, *Bill Gates*.

5. THE MORAL DECREPITUDE AND VACUOUSNESS OF UNITED STATES GOVERNMENT IS MYTHICAL

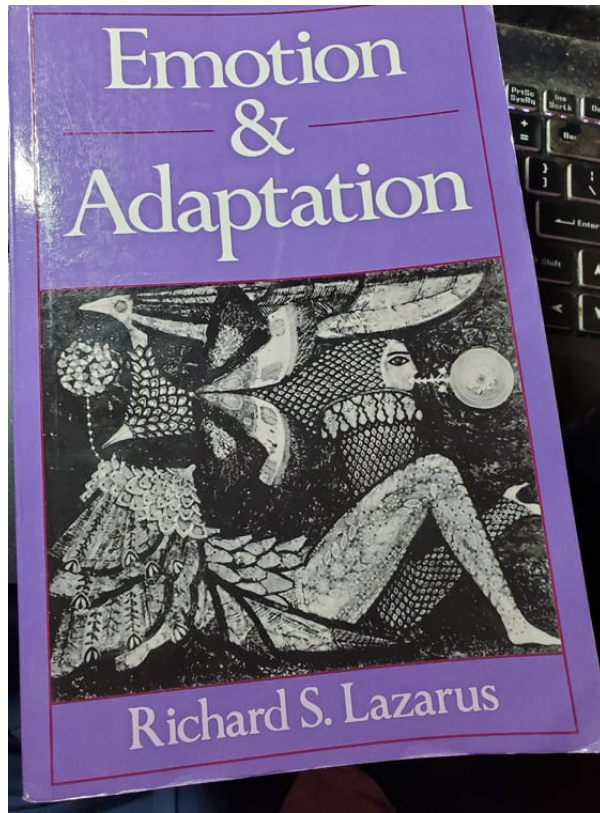

There are 330 million Americans, including myself. Of this 99% are reasonably good people. Of all these people United States Government coddled and supported and made *Bill Gates wealthy and gave him all manner of support for four decades*. This is one of the worst 100% cunts in the world. Around the planet you will not find a single person who is a lower shittier more disgusting and evil person at all. But of all the people, United States has to support this sort of a cat. You really think you can handle the fallout, United States Government? Why would you do that to people who did you no harm? It's not as though we, the American people, rampaged all your houses and raped your daughters. I never broke laws and always paid taxes. Why would you do this to me?

6. FINE UNITED STATES WILL DO WELL IF YOU WIPE OUR BILL GATES AND HIS EMPIRE

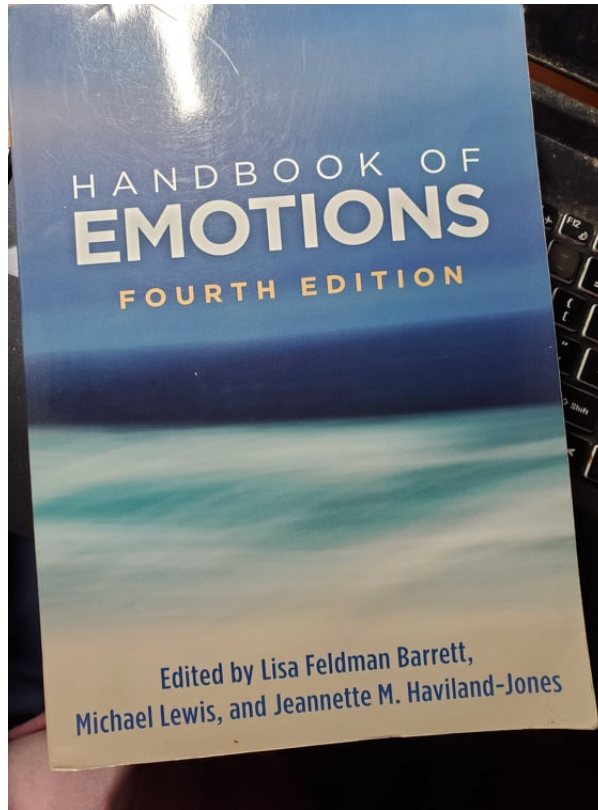

I am indeed a man for Universal Natural Rights Security World Order so *if* United States Government destroys Bill Gates and his Evil Empire, you will will do fine, but I am not convinced you have the foresight to do all that. That's the problem. I don't see from American History any indication that you can do any of this without botching it totally.

Alright enough of this rubbish let me turn to psychology of emotions.

7. SOME TEXTS ON PSYCHOLOGY OF EMOTIONS

This is a reputable text on psychology of emotions that I have been examining for a while.

This is a fairly encyclopaedic tome. I have also been examining this. The field within psychology is quite extensive.

8. A GREAT DEAL OF STUDY REMAINING

The literary and psychological literature on emotions is still in a state quite different from the level of precision that exists in mathematics of physics, and so the issues are both complex and far from their final form. For this reason, I will stop in this note today.

Progress, at least by myself, will be made in small steps. Unlike in four-sphere theory, in these issues, I am not extremely confident today about the answers and that is quite reasonable. What is important is that

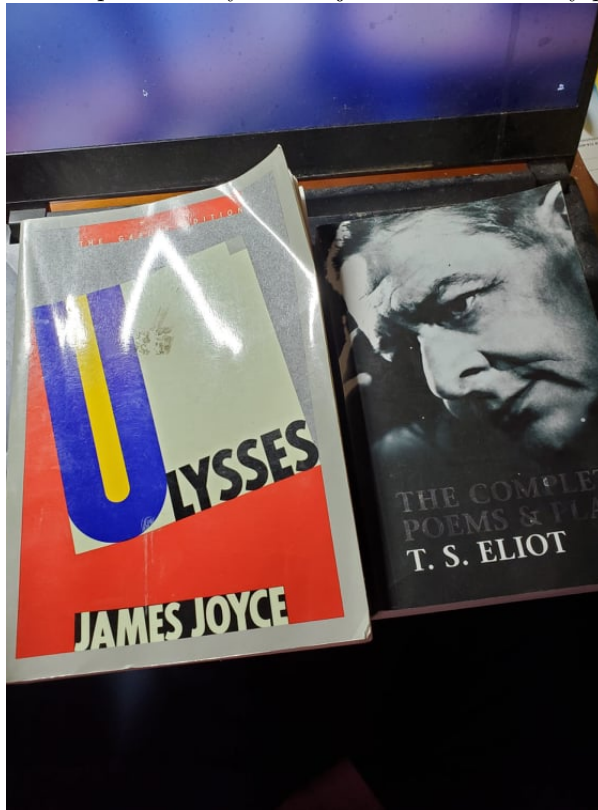

- There exist universal truths for emotions that are not yet understood clearly today
- There exists a concise fundamental theory that is powerful in coherence and completeness
- Applications of a strong theory of emotions will have positive transformative effect in improving the lives of all eight billion alive today

9. UN HUMAN RIGHTS COUNCIL DETERMINED CONFESSION OF BILL GATES
FOR PREMEDITATED MURDER OF ZULFIKAR MOINUDDIN AHMED IN D. E.
SHAW META

Many months ago UN Human Rights Council consider found confession of plot to murder myself, Zulfikar Moinuddin Ahmed, by Bill Gates, and he had planned to use power means to murder me and take my work and give credit and make money from it to white guys who are his lackeys and blame it on suicide or Covid. Why is he not arrested and safely out of my life?

10. ZULF OBVIOUSLY HAS HIGHER TASTE AND CLASS THAN BILL GATES

Let me prove it to you with just two books in my possession randomly chosen.

You see I actually have read these many times throughout my life. I am a Princetonian and so I am highly cultivated. Billy Boy The Disgusting Tasteless Gates neither has a college degree or even a modicum of cultivation in taste. Now you might say Eliot and Joyce are canonical Modernists, routinely taught at every university. Fine, but have you actually studied them carefully? I have. Cultivated people know what is worth *spending time on* and what is just decoration for the shelves.
