

MUSLIM WOMEN ARE MORE SATISFIED WITH LIFE THAN JUDEO-CHRISTIAN WOMEN

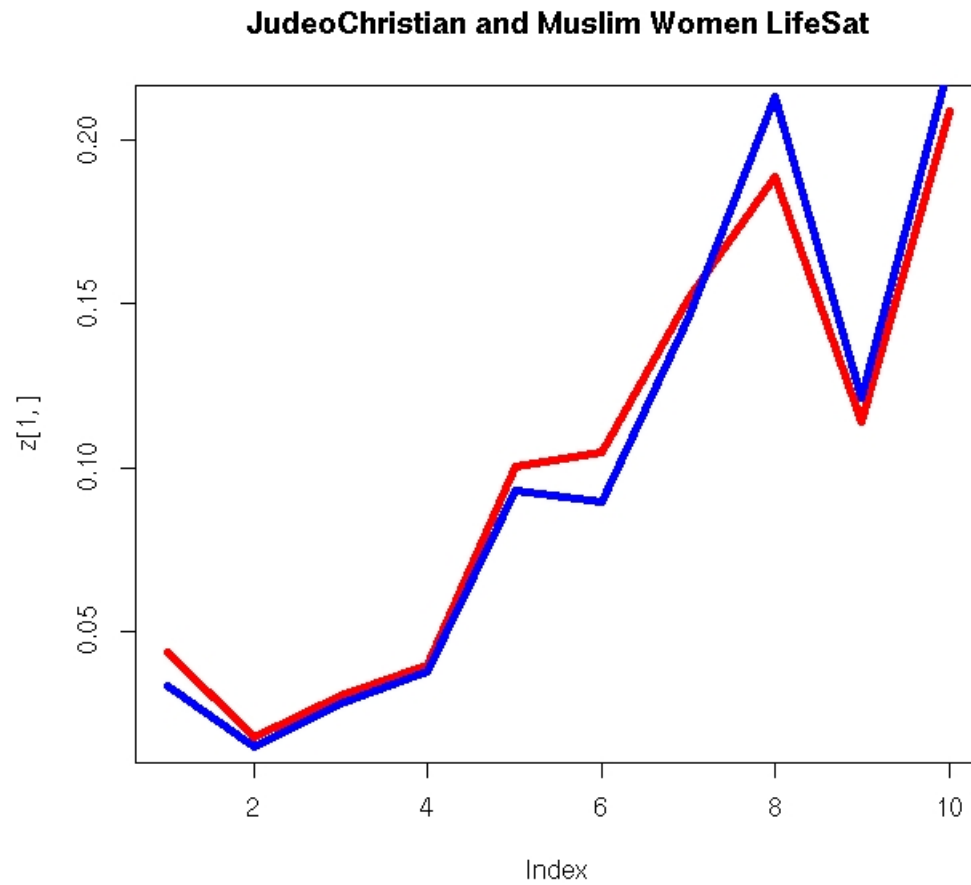

There are all manner of rumours about Muslim women in America especially since 9/11 and the Middle East Wars. Here is a simple result.

Muslim women have probability of 79.33% of having high life satisfaction compared to Judeo-Christian women who have a probability of 76.79%. This is significant statistically, and assessed from World Values Survey. I did not know this before, but it's not surprising to me. It will seem strange to a lot of people in Washington.

Let's look at the count data.

LifeSat	Judeo-Christian	Muslim
1	153	49
2	62	22
3	107	41
4	139	56
5	351	137
6	367	132
7	530	215
8	660	315
9	399	179
10	731	330

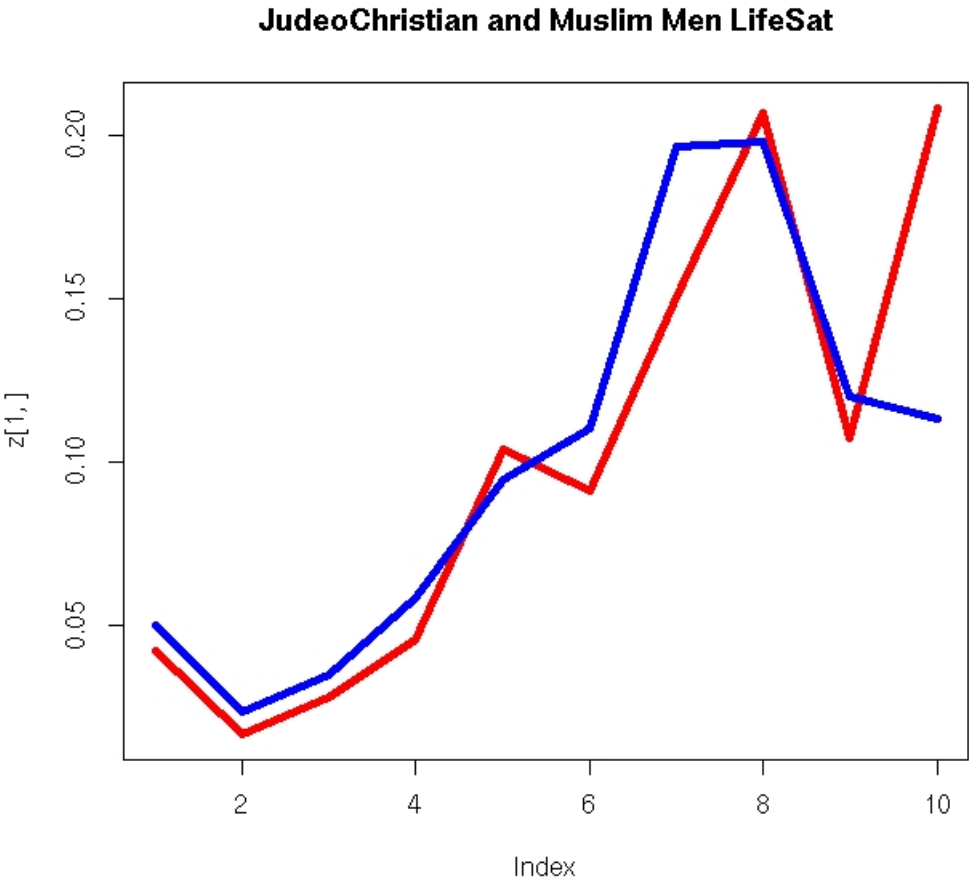

2MUSLIM WOMEN ARE MORE SATISFIED WITH LIFE THAN JUDEO-CHRISTIAN WOMEN

Red are Judeo-Christian women and blue are Muslim. The curves are very close with a slightly rightward skew for Muslim women.

1. MUSLIM MEN HAVE SLIGHTLY LOWER LIFE SATISFACTION THAN
JUDEO-CHRISTIAN MEN

Judeo-Christian Men have 76.4% life satisfaction compared to Muslim 73.8%.
Let's look at the curves.

Ah the highest level life satisfaction is a bit cropped.
