

LETTER TO SOUTH AMERICA AND AFRICA

ZULFIKAR MOINUDDIN AHMED

South America and Africa,

I want to see Continental Defenses coordinated right away. Just take what you have and coordinate Continental Defenses. Asia I want you to help out my friends in South America and Africa. Don't put a lot of Asian bases. Just help them get Continental Defenses in place for future American White Supremacist aggression.

Europe, I want you to get coordination ready for Asian mutual defense.

United States Government is extremely ruthless and destructive. You can see their handiwork in Hiroshima, Nagasaki, Korea, Vietnam, Iraq and Afghanistan.

I want South America, Africa, and Asia totally impenetrable my United States within the end of the year. Non-white lives are precious and I am displeased with United Nations Security Council for what they have been doing.

Move on these right away. I don't want any problems between Asian, African, South American Nations. Work fast together. Don't worry about who is offended. You will all be dead by United States Genocidal war machine if you squabble.

1. IMMEDIATELY AT UN GENERAL ASSEMBLY VOTE ON MUTUAL DEFENSE RESOLUTION FOR ALL NATIONS ON EARTH

Someone in United Nations General Assembly please propose in session Mutual Defense Pact Resolution of All Nations on Earth against United States Aggression. All Nations stay *obligated to enter any war in any nation* begun by United States Aggression, poor or wealthy. It does not matter what resources you have just sign the resolution.

2. AMERICAN \$768 BILLION EXPENDITURE ON WARS IS WORTHLESS NOW

United States absconds about \$800 billion from American people to produce wars around the globe. Now it's worthless. Even a small intervention and bombing raid will end up drawing every country into the fray from Iraq, Vietnam, Namibia, Indonesia, Malaysia, Japan, Mexico, Costa Rica, Lebanon, Zaire, and every other nation and United States will kill some people from everywhere, and instantly will be considered *the canonical enemy side* after every skirmish. Eventually every story and novel in every assorted country will be about heroic tales of engaging with canonical enemy American Forces. This means there is nothing to be gained at all by any wars any more because once that happens, no one will want to actually deal with America at all and close all access to their countries to Americans. Then Americans will not be welcome anywhere in the world and everyone will deny visas to Americans. That's the end for global hegemonic power. Now United States could still do something, but \$800 billion is wasted money. American Military folks will just refuse to get into random wars because that's just a nightmare.

Date: December 9, 2021.

That's too bad, United States Government. You want some more? This is the end for your ways. Why did you let Bill Gates use war meta on me? Alas, you can scream and you can shout but it's tooooooooo late now. It's too late you punk kids. You thought it would be so easy huh? Now what are you going to do with a huge amount of war machinery but no one who wants to do your wars huh?

Thanks,

ZULFIKAR MOINUDDIN AHMED
