

ZULF'S FEBRUARY 4 2022 FORMAL PUBLIC STATEMENT

I got a phone call today waking me up from Ms. Jasmine Sackey. She said a police officer emailed her regarding something or other that they *construed as a physical threat* to Bill Gates. They are following some Texas Law and they are misrepresenting me intentionally. That's a political ploy to use state repression powers against me.

I have said various things about Bill Gates, and made humorous statements about 'pulling the trigger'. I consider their efforts at considering me a threat to Bill Gates physically to be political repression. I can assure you that I personally do not have any plans to harm him or anyone else physically. I did invite him to a street fight but I knew he would not comment publicly. What people do not understand is that I deal with him all the time in 'meta'—without physical dealings, not out of my free will but because he has been aggressive with meta powers and aggressively harmed me.

I do not consider Bill Gates to be a worthy person otherwise to even think about. Nothing whatsoever that he is known for is impressive to me all that much. For God's sake the man goes in front of public with jars of feces. He's a disgusting low wretched worthless miserable son of a bitch who was always a psychopath, a pathological liar, and not worth my time.

But he I will never take back anything I have said about him at all. He is as savage primitive vile low filthy disgusting criminal racial murderous knave as my depictions. I have a right to voice my honest views, and since he has accosted my daily sleep for over two years with destructive intent with 'Enslavement' and 'Conquest' and White Supremacist meta powers for over a year, I do not consider inappropriate to continuously refer to him as stupid cunt. He is a stupid cunt and this is not something I use lightly. He blockaded \$620 million of my money in meta, from Christine Lagarde and from David E. Shaw and damaged my Finance career meta with hateful racial political intent.

So that's the key point of my statement. I do not renege on any single thing I have written about Bill Gates and stand by all of it, including his being intellectually incapable illiterate and stupid, obsessed with power manipulations and literally thinking that there are no other non-white people who are tenured at Harvard, Stanford, or other great universities and thinking that by harming my American Dream and my efforts at getting my life together and seeking tenure at Stanford University and Harvard University, seeking just compensation for my great work in Science, in Finance – by the way I know that D. E. Shaw is making a lot of money on my work on \$6 billion invested in my Medium Frequency Strategy.

The local police and FBI officers are colluding to drag me off for frivolous claims that I represent a physical threat to Bill Gates. That is just absurd because I am

in Allen Texas and he is 2100 miles from me, and I am interested in relocation to *San Francisco* not podunk nowheresville in Seattle.

How this malevolent psychopathic dyed-in-the-wool murderous white supremacist son of a bitch managed to survive in the post-sixties corporate America is a wonder for me. He is much more destructive racial cunt than any Nazi in Germany before the war, much worse than butchers in Auschwitz.

Why doesn't United States Government actually secure my American Natural Rights rather than making up stories about how I represent a physical threat to Bill Gates?
