

## OPEN LETTER TO ERIK VERLINDE

ZULFIKAR MOINUDDIN AHMED

Dear Mr. Erik Verlinde,

I wish to congratulate you for your work on non-existence of gravity was bold, pioneering and correct, and in this primitive age of man, you have been a shining star of the intrepid hero in search of truth who inspired me and will inspire countless generations of our beloved people the human race in the future. You are absolutely right about Nature. My approach was more elementary and based on chemistry and mathematics. I deduced that since the thing that is called Van der Waals in small ranges is of purely electromagnetic origin, that it is not a short-distance force and has long range inverse-square behaviour and reproduced Earth-Sun gravity accurately and this was my path to refuting existence of a mass-based force in Nature.

My notes and papers are all available, dated appropriately in my Github archive [3].

Thank you Sir,  
Zulfikar Moinuddin Ahmed
