

# **ZULF WILL DISPENSE UNITED STATES OF AMERICA INTO OBLIVION UNLESS UNITED STATES GOVERNMENT SECURES MY NATURAL RIGHTS**

ZULFIKAR MOINUDDIN AHMED

Look, United States Government, I throw out broken toasters. You, the United States Government, are advertised to secure natural rights. That's what it says right here in US Declaration of Independence Preamble. If you do not secure my natural rights by killing Bill Gates I will toss you into oblivion and you will cease to exist. I don't give a flying fuck if you think you're big and indispensable. If you're not delivering natural rights I will erase you from existence. Is this clear or do I have to repeat myself?

## **1. PRINCIPLE: UNITED STATES GOVERNMENT DOES NOT DESERVE TO EXIST IF IT REFUSES TO SECURE EVEN ONE PERSON'S NATURAL RIGHTS**

United States Government is an organisation whose *sole purpose* is to secure our natural rights. I am American, and if United States does not secure my natural rights, then it does not deserve to exist. They cannot secure my natural rights without killing Bill Gates. Therefore I will ensure that they are totally erased from existence relatively soon.

Either they will secure my natural right to Life by killing Bill Gates, or they will cease to exist and I will be quite diligent about not allowing these organisations to claim legitimacy. Who do they think they are? They have no legitimacy whatsoever unless they secure natural rights, mine, and of 330 million Americans. They are toast. They are gone. They are historical memory unless they deliver natural rights security.
