

WHY BILL GATES SUCCEEDS AGAINST ECB, FED, USG, UNSC

ZULFIKAR MOINUDDIN AHMED

Bill Gates is disgusting, extremely low, obsessive, and is willing to be – and indeed only knows very low disgusting things to do. ECB, UNSC, USG higher ups, Fed, all of these have people running them who are not low and disgusting and don't really like getting involved at that level. But Bill Gates power level is high. As a result he is always successful against all these organisations. They don't have the interest in low and disgusting nonstop. So he wins against all of them.
