

YOU TAKE A GREAT RISK FOR WHITE PEOPLE'S REPUTATION AMERICAN GOVERNMENT

ZULFIKAR MOINUDDIN AHMED

United States Government,

Remember that it was not Isaac Newton, it was not Pierre-Simon Laplace, not Albert Einstein, not Erwin Schroedinger, not Paul Dirac, not Richard Feynman, but I, Zulfikar Moinuddin Ahmed, who had given humanity the final laws of macroscopic Nature. I am the first man in history to elucidate the Universal Human Moral Nature, showing that there is invariance and ethnicity independence and universality in moral value distributions, exceeding the imagination of Immanuel Kant and Friedrich Nietzsche. I have established Aristotle's Virtue-Eudaimonia theory with empirical data, extended it to include Virtues of Romantic Love never considered at all before Avicenna, and never determined before I had determined them for the codebook of universal Life Satisfaction. I have provided the path to resolution of Intimate Partner Violence that plagues this world affecting 10-16% of all romantic pairs on Earth. These have been gifts of Heaven to my beloved people the Human Race, the gift of an Archangel of Heaven.

And how have you treated me? Did you *even* secure my Natural Rights against an Evil Sorcerer such as Bill Gates?

Do you really think that White People in America have been served well by your decisions? You are quite arrogant. Do you really think that your Genocide plans for Asia, this Manifest Destiny program, one that saw the decimation of Native Americans, the enslavement of African People, nuclear bombing of Hiroshima and Nagasaki, wars in Korea, Vietnam, Iraq and Afghanistan, these things, they will ensure that White People of America will be respected by the world? You are most foolish. I am the greatest genius this planet has ever produced, and the entire American Civilisation will dissipate for your insolent behaviour towards myself.
