Dear President Vladimir Putin,

You will not succeed with any regime change in Ukraine that is stable. These things do not work. United States did what in Iraq exactly? Iraq is still a total disaster.

I see Russian troops in Kharkiv now. Russia will most certainly be hurt by this effort for regime change. Why don't you pull out unconditionally and Asia can arrange natural rights issues?

Now Russia will be under pressure economically and I do not believe you will be able to do anything much in Ukraine or other countries in the East this way.

This effort of yours despite your idea of pushing back NATO was foolish. You should seek a joint Eurasian Defense. You are now allowing American White Supremacist World Order folks like Bill Gates get their chance to hurt Asia again.

Asia, why don't you just offer to do something regarding Eastern and Western Ukraine natural rights. I am not extremely happy with your leadership.

I am Zulf, Zulfikar Moinuddin Ahmed. Why don't you understand? You should offer to get involved and assure Russia that you can handle natural rights.

Thanks,

Zulfikar Moinuddin Ahmed
