

## MY PLACE IN THE WORLD IS DETERMINED BY FATE

My place in the world is determined by my unique position. I am in the physical environment isolated in Allen Texas, living without a serious source of income, single at 48. My American Dream was achieved by D. E. Shaw agreeing to pay me compensation of \$120 million but was dashed by Bill Gates' obstruction. This happened within the last year. I was planning to buy a good pad for \$3.5 million in San Francisco and handle affairs of my family and set up two companies with the money. US Executive White People refused to enforce any law at all against Bill Gates for a year. Bill Gates blockaded my private property of \$620 million for a year and no one could do anything.

I was not quiet exactly and repeatedly emailed masses of people I did not know. But no one fixed these problems. I know that Bill Gates cannot have any right to do the harm that he had done to me. I know because US Declaration Preamble implies everything he did was illegal. But he believes in fictional rights for himself. The party to blame is of course White People of US Executive Branch. So I have to deal with these problems that most people in America or anywhere at all ever have to face. You have a bunch of morons – the White People of US Executive Branch – who are responsible for enforcing laws who are bamboozled by a charlatan criminal Bill Gates. And then I have to be the goddam victim of a criminal in my own country instead of enjoying the fruits of my great work of many years.

So now I have to save the world from the Enemies of Liberty of the Human Race in addition to staying alive while the White People of the US Executive Branch get paid for doing nothing. They may think they are greatly valuable but they don't enforce laws when they need enforcing and put American lives and livelihoods in danger and don't want to do anything when people ask them to do something.
