

BILL GATES NOT COMPARABLE TO LITTLE PINKY FINGER OF SIDDHARTHA GAUTAMA

ZULFIKAR MOINUDDIN AHMED

I am not a Buddhist myself in formal religion but my spirit and soul are both infused in this life by the Divinity of Siddhartha Gautama. For me, Buddha was the King whose heights the fictional Danish Prince Hamlet could not scale. His myth animated my soul in 2008 when I gave up every single article of my possession in a Williamsburg loft in Brooklyn New York and took to the streets with a small bag. Only with this great act of dispossession and leaving behind all my material possessions could I reach the spiritual heights that brought me closer to Buddha, that strongly sealed my resolve that it is my great love of my beloved people the human race that must sustain my future.

Around the world, Buddhism is practiced as a religious faith by 535 million people, that is roughly 1.6 times the total population of the United States of America. The idea that the arrogant illiterate symphony of vices, this Bill Gates, has that he is big is truly laughable when he claims to be bigger than Buddha. Buddha was a great healer of the human soul, whose discoveries and teachings have given significant meaning in the lives of 535 million of my beloved people the human race. And Bill Gates has done what exactly by comparison? He sold third rate computer software and lied, cheated and sought power, is of peasant birth. He is as low below the ground as Buddha was high above.

As you can see in the photograph, Bill Gates is smaller than the pinky finger of Buddha.

Date: November 29, 2021.

1. WHAT IS GREAT ABOUT BILL GATES

Bill Gates is not a great man by achievements. There my achievements far surpass his by importance. Bill Gates is not a great man by Genius. There my Genius far surpasses his. But he is indeed great in some things. He is Great in his Illiteracy and his Ignorance. He considers United States Declaration of Independence Preamble "English Propaganda"; he believes that United States *won* the Vietnam War. His Ignorance and Illiteracy is indeed Magnificent and Great but he himself is quite little.
