

ENGLAND ASK YOUR STRATEGISTS TO EVALUATE THE FOLLOWING

ZULFIKAR MOINUDDIN AHMED

If Eurasian Powers unite to put a Defensive Umbrella without prejudice just by geographical contiguity, and England, France, Germany bow out of NATO for Eurasian Defense, you can have total tranquility minus aggression from America, and in *two years* you can expel America from Eurasia with no possibility of America being able to breach any part of Eurasia for another half a century.

If you do not do this, and America drags NATO into more wars – as they are planning for a while – in half a century all of Western Civilisation will literally be rubble.

Evaluate. Go ahead. Test Zulf. Do you think punks like Acheson and Kennan could tell you this? No. I am a far greater genius than they could become in 20,000 years.

1. ASIAN MANIFEST DESTINY IS THE GREATEST THREAT EVER FACED BY EUROPE

Europe never really had a Genocidal drive to wipe out other peoples. Europe is older, much older. But American White People have this in them, the glorification of Genocide, and this Asian Manifest Destiny will totally destroy Europe. If Europe does not drop NATO and enter Eurasian Alliance right now Europe will be smouldering in ruins in half a century. I will sign this with my blood. This is the natural consequence of folly of letting America lead Europe in Asian wars. You see, it's not China. China is big, but you don't understand Asia. Every single Asian person, man, woman and child will react with such tremendous fury against the West that in the end they will raze all of Western Civilisation to the ground. They want tranquility. And divided, they have been weak, but they won't be divided. They will all unite with murderous vengeance against Europe and that's not good for Europe. Europe is contiguous to Asia. Europe should not stay in NATO and squelch Asian Manifest Destiny right away.

2. WHY NATO IS BAD FOR EUROPE

American Government and Bill Gates these white supremacist types, they don't give two hoots for United Nations. *Europe* cares because Europe is now relatively safe and UN values are good for Europe. United States does not give a damn about United Nations values. They want global dominance for white rule of the world. Bill Gates is more direct and open about this and Washington more muted. But Europe does not gain *Defense* in NATO the moment they are involved in American war plans. America was effective for Europe against Soviets. But you see, American Racial ideas are much more *savage and barbaric* than Nazi Germany's. So France,

Germany, and England ought to immediately drop NATO and produce a Eurasian alliance for actual defense. The source of trouble is America's White Rule of the World Manifest Destiny. This will always cause *defense risks* for Europe now. Europe's needs are closer to Asia's now than America's. It's better to make this transition *right away* rather than get into a situation where *Zulf is dead* because no one else on Earth can fix this situation better.
