

## ZULF REVEALS THE UNWISE POSITION OF TRUST FOR AMERICAN GOVERNMENT FOR THREE DECADES

ZULFIKAR MOINUDDIN AHMED

For three decades, I was busy with a productive life with ordinary concerns of an American man, develop a career, work on productive things, trust the institutions of this Nation, follow the American Dream, and so on. These are things that seemed quite natural. I never thought until the past year, that there was any reason to distrust the American Government. I was blind. I found out by brutal harm to my body and life, that I was unwise in my trust of the American Government. I find today that the trust had put my life in danger. I find, today, that white people in the US Executive Branch are not enthusiastic about providing me with Natural Rights Security at all.

At first my reaction was emotional. I had trusted the American Government as my own. I had thought, had internalised for many decades, that despite its various flaws, at the very least United State Government will intervene when my Natural Rights were threatened, because that is their primary purpose, written into the Foundational Charter of this Nation.

What I discovered, however, was that the white people in the US Executive Branch are fairly oblivious to the purpose given in exact terms by the Founders of this nation. And suddenly I realised that I was always deluded. Suddenly realised that even though I had accepted this country as my own, that the white people in US Executive Branch did not accept me as American in any significant sense. This produces a situation of great consternation. I have to consider them illegitimate till they understand their role in the country and the world. I will always be American. Whether the white people in US Executive will be American or not is their headache.

### 1. I CHUCKLE AT THE HELPLESS POSITION OF WHITE PEOPLE OF US EXECUTIVE BRANCH

I am most amused. I am so amused that I chuckle. You are helpless against this issue of American-ness. You see I have valid immigrant status from 1997 with USCIS number 046-077-179. And the expiration is 2031. That means by the time you can fiddle anything with my American-ness, I will have valid immigrant status for 34 contiguous years. And you are not allowed to tamper with laws but only *execute* them. So then you can't touch my American-ness at all. I laugh. I laugh about this. And soon, your American-ness will be tested by your adherence to Natural Rights Security of all Americans while you will be biased against non-white Americans and that will be that for your American-ness. It won't be a bang but a whimper. Hahahaha.

## 2. THE PROBLEM WHITE PEOPLE IN US EXECUTIVE ARE HAVING

Bill Gates lied constantly about his political stripe in all his public discourse, and interviews, and documentaries. He presented himself as a slightly liberal man who happened to be wealthy but philanthropic interested in problems of food and toilets in the world. But in fact he was always a hyper-super-duper Nazi White Master Race man behind the mask and his lifelong dream was always to become the White Master Race Tyrant of the world with enslavement and recolonisation and White Supremacy.

Now White People in US Executive Branch are more normal; their political band was a little bit center left and a little bit center right and more normal.

They are shocked to find that Bill Gates was in the business of cutting into the eyes of a non-white American past the blood meta and into the deep interior with Industrial and War Powers with Conquest and Enslavement powers. They have a hard time believing that because they thought the "PR" was the real Bill Gates.

They will believe me easily as an urban non-white professional who is a bit on the idealistic 'fruity' side for my universalism. This is in their range of understanding. But they are unlikely to be in cahoots with Bill Gates and his more-savage-and-brutal-than-Auschwitz-butchers type ideology. That's because their parents and grandparents fought the Nazis.
