

ZULF DEMANDS ANSWERS FROM UNITED STATES SENATE

ZULFIKAR MOINUDDIN AHMED

Dear United States Senators,

I want to know why my ethnic meta is sabotaged with huge amount of destructive racial powers from Bill Gates in my own country right under your noses and he is still not brought to justice and put to death with extreme prejudice. How is this possible in a nation built on United States Declaration of Independence that says governments are instituted to secure American natural rights. I am American and I demand answers! Why is this racial murderer Bill Gates still alive after this grave insolence?

Thank you,
Zulfikar Moinuddin Ahmed
USCIS# 046-077-179

1. WHITE PEOPLE IN AMERICAN GOVERNMENT WILL BE JUDGED FOR MORAL SENSE GLOBALLY

You see, United States Senators, I am personally not impressed with how white people in American Government had treated the native Americans in this country in the 1830s. I am not impressed with how white people in American Government had treated the Japanese-Americans during the Second World War. I am not impressed with how white people in American Government handled the horrible massacre of 500 people in My Lai in 1968 with 17 pregnant women killed and young girls and women raped and mutilated and thrown to ditches and killed by machine gun. William Calley was evil and ought to have been burned at the stake. I am not impressed because white people in American Government has systematically been extremely kind to people who are evil and vile and the victims are not white. I see this in operation right now in 2021 when Bill Gates is a racial murderer, and I will ensure that 4.5 billion people in Asia sit on judgment of every American white person for the next thousand years until I see results here.

2. ELEMENTARY THINGS ARE MORE IMPORTANT THAN COMPLEX THINGS

I am gifted in mathematics, was from high school years in New York 1987-1991. And I have a strong background. I was in industry from 1995-2008 rather than academia and I was in Columbia graduate school and worked with Daniel Stroock at MIT in 1999-2000. I have been doing some of the Ph.D. Analysis Qualifying exams to regain my groove recently. Yesterday I found a counterexample to Problem I.5 of 2013 exam of Stanford. They are the very top school in Mathematics at the moment, so this is not a minor achievement to see a counterexample to their problem from 2013 some eight years undetected by all the students and faculty of Stanford Mathematics.

Date: December 20, 2021.

I will apply my mathematical talents to try to explain something to United States Government whites. You see, when the population size is substantial, it is not the complicated things that make you look good to people that matter more. It is the elementary things that matter much more. You think, in your careers and daily lives that natural rights security is trivial and you are doing more sophisticated things. Well natural right security is not trivial, it is the most challenging task and the purpose for existence of governments among men. If you are *bored* by this you should exit government service. The American people, 330 million of us, cannot afford to have people in our government who are bored by the purpose of government.

3. THE RIGHT ANSWER

A tycoon who made his money by being a total pathological liar and charlatan self-promoting non-existent intellectual genius had been moonlighting as racial murderer using power techniques for more than four decades. What is the right answer here when he assaults an Asian-American man with 24 years of legitimate Permanent Residency with disability attempting to regain his life with enormous effort and has success with Finance work? He uses European Black Magic forbidden from thirteenth century; he uses US War meta to harm body meta; he uses white power breaching blood meta and deep interior; he constantly admits to having plotted racial murder.

The right answer is as clear as day. More than a year ago Bill Gates ought to have been relentlessly bombed and obliterated physically and all his assets confiscated by the United States.

If you never got the right answer, you are totally incompetent to have any position at government at all.

If you knew the right answer and did not want to put in effort, then you're too lazy.

If you knew the right answer and did not know how to implement it, you are well-meaning dodo who also should not be in United States Government.

You should not be in United States Government unless you know what to do and have the motivation and capability to execute it.

We pay \$1.5 trillion in taxes per year. We don't believe that we should have these problems in American Government with this resource spent. All 330 American Government need to trust that you are doing the things demanded of you without problems. Otherwise we'll replace the whole lot of you.
